

Remove the Stress of Buying Your Dream Home with a Severn Bridge Loan

If you have found your dream home but still need to sell your current home, a short-term bridge loan puts time on your side. With a Severn bridge loan, you can apply the net equity in your current home as a down payment on your new home before you complete the sale. We listen, understand your needs, and find a solution that is quick and convenient. Severn can help you make the move happen with these simple steps:

1. Find the house you want to buy.
2. Determine what you owe on your current house.
3. Combine your current mortgage and new home loan into our bridge loan with one low monthly interest only payment.*
4. Sell your current house and pay down the balance on the bridge loan.
5. Enjoy your low monthly payment on your new home loan.*

If you need the benefit of just a little extra time to sell your house to buy your new home contact us today to learn more about our bridge loans.
