# EY

Hello from Huber EY Red Angus,

Welcome to our 2023 annual production sale. We have been raising Red Angus cattle for the past 26 years and our focus remains the same, stay out of the extremes and use proven genetics. We want to produce balanced traits that work for not only ourselves but our customers as well. We watch closely for mothering abilities, foot structure, and temperament. Our culling process is strict and we prefer to only sell bulls we wouldn't hesitate using ourselves.

We feed everything here at the ranch and use a TMR wagon allowing us to manage a higher roughage ration. The rations are balanced by our nutritionist Joel Ostendorf, of CHS, and consist of alfalfa, slough hay, upland hay, hay barley, corn silage, dry DDG, corn, barley and a mineral supplement. The only creep feed the bulls receive is a cocci pellet in the spring before turnout. They are raised on their own dams and weaned in October at our ranch. Our goal is to develop the bulls responsibly and feed for a 3lb/ADG.

Our cowherd and herd sires have been 50K DNA tested for genetic and parentage assessment. We feel confident that this will provide you with the most accurate numbers when making your selections.

The bulls will have passed their first semen exam by Dr. Galbreath before sale day. We recommend having them tested again before turnout. The bulls will also receive a foot rot shot.

As cattlemen you all know the hours and hours that go into raising cattle, we couldn't get it all done without the help of our kids and hired help, Joe and Garrett. Thanks to them and all the other individuals that play a role in helping us throughout the year.

We look forward to working with past and future customers and continue to stand by the cattle we raise. Feel free to visit or ask questions about our herd anytime.

The Hubers

# KR

Hello and welcome to our annual production sale.

We first want to thank our past buyers for their confidence and support of our program. We are grateful for the support and friends we have made being in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on Oct. 3 and continued for 110 days. The bulls had no creep and were weaned and started on a Head Start pellet with free-choice hay and then started on the complete mixed ration.

We always try to grow the bulls and not push them. In doing so with the extreme winter we have had in our area this year, the bulls are down some from our usual weights but have really done well as of late and we believe those of you who have seen our cattle will see the same quality you have seen before. We take pride in representing our cattle honestly, absolutely no "fluffed" numbers or information. We believe in trying to breed the most balanced and functional cattle possible. We do not chase any one individual trait. All the bulls are semen and soundness evaluated and are ready to go to work for you.

We are excited for you to see the bulls. We try to bring a consistent offering from end to end for you to appraise. They are bred to grow and fed to last in anyone's program. This year we again are offering a few more black bulls, by utilizing embryo transfer and artificial insemination we are hoping to bring some high-quality black genetics for our customers that utilize both black and red genetics.

We would like to invite you to take the evening off and join us on April 28, 2023, at 5 p.m. at Napoleon Livestock. If you are unable to attend the sale, we encourage you to view the bulls at the ranch any time before the sale, or give us a call. This year we have videos of the offering available online on DVAuction.com or our website crosshairsimmental.com. We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability.

Thank you for your interest and support.

Ben, Cassie, Brinley, Hailey, Jaxson, Jace and Colton Kleppe

# Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus Friday, April 28, 2023 at 5 p.m. CDT

Napoleon Livestock, Napoleon, ND • 1-800-932-8821 • 701-754-2216

Complimentary light supper will be served at K Jac's starting at 3:30 p.m.

**SALE DAY PHONE:**

Ben Kleppe .....	701-426-9210
Cassie Kleppe .....	701-471-2699
James Kuhn .....	701-426-6921
Stephanie Kuhn .....	701-269-9959
Bryan Huber .....	701-320-8054
Emmy Huber .....	701-320-1995

**SELLING:**

51 .....	Red Angus Yearling Bulls
4 .....	Black Red-Gene-Carrier Yearling Bulls
5 .....	2-Year-Old Red Angus Yearling Bulls
32 .....	Simmental & SimAngus™ Yearling Bulls
45 .....	SimAngus™ Commercial Open Heifers
30 .....	Red Angus Commercial Open Heifers
20 .....	Red Angus-Simm Commercial Bred Heifers

Please feel free to visit the ranches to look at the cattle before hand.

They will also be at Napoleon Livestock on  
Thursday, April 27 by 5 p.m. for viewing before the sale.

Remember, you can also bid online with DVAuction,  
or call one of our ringmen to help with phone bidding.

## Kuhn's Red Angus

James, Stephanie Kuhn  
Elodie, Reagen, Hudson, Brock & Kyah Kuhn  
6962 28th Ave SE  
Napoleon, ND 58561  
Home: 701-332-6378  
Cell: 701-426-6921

Thank you for your interest in our 29th year, it means so much more to us than we can express.

Our herd as well as bulls in our sale are DNA and parent verified. Meaning you will know that not only the bull you purchase is out of that sire, but he is also out of the dam in the catalog, and she is verified to who she is. We believe that you should know that the genetics you are buying is what you are getting!

We also GGP enhanced the EPDs. By doing this it will give you a more accurate picture of what you are buying. There have also been enhancements in the ET side of things as well, so you will also see more ET sons as well as sons that have come from ET daughters. This gives you the ability to turn out full brothers into your cow herds.

We have been doing a lot this year as a family, so let me get you caught up on the kids.

Starting off with the baby of the family, Kyah, who turned 6 in September last year. She started kindergarten this year, and has enjoyed making new friends as well as getting time away from home. When she is home, however, she loves to play with both of her older brothers. Whether it's playing tractors or spending time in the wonderful amount of snow outside, note the sarcasm.

Brock just turned 8 this year and is about to finish 2nd grade. He is more excited, though, about being able to stay home and help with outside chores. He has started driving tractors more as well as helping with feeding during weekends. He loves to help his dad with whatever he asks, however he does have a special love for working with machinery. Brock also has started elementary wrestling and was enrolled in the pre-season this year!

Hudson is the oldest boy at 11. He is about to finish 5th grade and he is really excited for summer to come. Hudson is a true adventurer through and through. He loves to explore anywhere and will watch YouTube

videos on hunting and surviving techniques. He also tends to rope in the younger two with him, and they all work well together. Hudson, like Brock, was also in pre-season as well as regular season wrestling this year.

Reagen is the second oldest at 13, and is involved in Track this year and JO volleyball. She loves being able to go to practices and games with her friends. She also finally, after long years of begging, convinced James to get her a horse. She was ecstatic when she heard the news! The horse she is receiving comes from Sandy Martsching, one of our RECIP cow providers.

The oldest kid in the family is Elodie, she is 14 and about to turn 15 in May. Elodie has had a busy year with FFA, speaking the FFA Creed and making it to top 4 as well as being Vice President in the State Runner-Up Conduct of Meeting team. She also was in Livestock judging and got gold this year at state. Right now she is in Track, Drama, and Speech. Elodie is also a member of the North Dakota Junior Red Angus Association (NDJRAA) and currently serves as their secretary. The heifer she is working on this year for the show pen is Nezy. Nezy's ID# is K088 and her sire is Energizer.

Thank you for your support in our programs,  
James, Stephanie Kuhn • Elodie, Reagen, Hudson, Brock and Kyah

**SALE ORDER:**

The bulls will be sold by a sale order that we will put together sale day.

**CATTLE VIEWING:**

Prior to April 28, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Crosshair Simmental can be viewed at the farmstead 15 miles north of Napoleon on Hwy 3 and 1 mile west.

Huber EY Red Angus bulls can be view at the farmstead 2 miles north of Jud, N.D., 3 miles east, and 1/2 mile north..

The cattle will be available to view at Napoleon Livestock on Thursday, April 28, 2022. after 5 p.m., and all day on Friday, April 29. The sale begins at 5 p.m. Central Time.

**AUCTIONEER:**

Seth Weishaar .....605-210-1336

**RINGMEN:**

Kirby Goettsch, Farm & Ranch Guide .....605-380-3939 Cell

**LIVESTOCK INSURANCE**

We recommend insuring your purchases at the sale. Livestock Mortality Insurance will be available through Novich Insurance Agency with Jeff Thomas. Contact him at the sale or by phone at 406-581-8859 or e-mail at jeffthomas138@gmail.com.

**BREEDING GUARANTEE:**

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2022. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

**TERMS AND CONDITIONS:**

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

**ONLINE BIDDING:**

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see the below instructions on registering and bidding.

**Buyers — View the bulls ahead of time at our ranches and receive a \$100 sale credit!**

**Watch & Bid online for FREE!**

**Visit [www.dvauction.com](http://www.dvauction.com)  
and Register!**

*It's as easy as 1, 2, 3 ...*

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "create new account" tab.
2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, at least 24 hours prior to the auction.
3. Tune into the sale and make your purchases!

**Can't make the sale?**

Let DVAuction bring the sale to you!

**Busy during the sale?**

Let DVAuction represent your bid!

## RED ANGUS GUIDE TO EPDS

RedAngus.org

**ProS**..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB**..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM**..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED**..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW**..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW**..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW**..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG**..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI**..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK**..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME**..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG**..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM**..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY**..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB**..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG**..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW**..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA**..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT**..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

# SIMMENTAL Power of Science.

## Commitment to the Beef Industry.

Committed to data collection and performance-enhancing programs to provide better tools for beef producers.

Focused on science and research to continue advancing technology.

## The Most Profitable Calf is the Crossbred Calf.

## SimAngus™ The Obvious Choice.

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more optimum balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

— MARC GPE Progress Report No. 22, USDA

## Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit [simmental.org](http://simmental.org).

**CE** ..... Calving Ease – predicts the ease with which a bull’s calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

**BW**..... Birth Weight – predicts the difference in average birth weight of a bull’s progeny compared to other bulls.

**WW** ..... Weaning Weight – predicts the difference in average 205-day weight of a bull’s progeny.

**YW**..... Yearling Weight – predicts the difference in average 365-day weight of a bull’s progeny compared to other bulls.

**MCE** ..... Maternal Calving Ease – The ease with which a sire’s daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire’s daughters.

**Milk** .... Milk – predicts the milking ability of a bull’s daughter. A positive value indicates above average milking ability.

**MWW** ..... Maternal Weaning Weight – predicts the weaning weight of a bull’s daughter’s calves in pounds. A positive value indicates higher-than-average weaning weights.

**CW**..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

**REA** .... Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal’s progeny. Express in sq. inches.

**MARB** .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

**BF or FAT** ..... Backfat – predicts the average differences between an animal’s progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

**YG** ..... Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

**STAY** ..... Stayability – predicts the probability that a sire’s daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

**API** ..... All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

**TI** ..... Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

Cheering Betsy on at a Cross Country meet

## 20 Head Bred Red Angus-Simmental Cross Heifers

Wayne and Kaye Schulz, Streeter, ND ..... 701-269-2045

Red Angus-Simmental cross heifers bred to calve May 15 to May 30. They are bred to Kuhn and Huber EY Red Angus calving-ease Red Angus bulls. All heifers are home raised and pelvic measured. They had the Select Vac program as calves and Preg Guard 10 at breeding. They were fed a quality organic mineral package with Rumensin force-fed in the TMR all winter. Also, recently they were treated with a 28-day Decoquinat program to reduce Coccidiosis shed prior to calving.

Please call with any questions.

## 15 Head Commercial Red Angus 100% 1A Heifers

**James and Stephanie Kuhn, Napoleon, ND .....701-426-6921**

These Red Angus heifers have been on a full vaccination and mineral program. Weighing around 900 lbs. They have been vet checked and are open and breedable. These beautiful ladies are coming straight out of our replacement pen.

Please contact us if you need any more information.

## 15 Head Commercial Red Angus Heifers

**Justin and Jenna Weigel, Kintyre, ND.....701-321-1840**

These Heifers have been Bangs vaccinated and checked breedable by Steele Veterinary Clinic in February. They were given a Preg Guard shot, pink eye shot, and poured with Clean Up. All heifers are 100% home raised and sired by Kuhn's Red Angus Bulls. There are no brands on the heifers, and they have had two rounds of shots this past fall. These girls are some of our top-end heifers.

## 45 Head Commercial Red Angus/Simmental Commercial Heifers

**Karen Mutschler or Jeremy Hoff, Eureka, SD ..... 605-281-0055 or 605-281-0257**

These heifers are February/March calves. They will be weighing around 900-950 lbs. They have had all their calthood shots:

Birth – Alpha 7, Vit EAD, Clostridium Type A and Inforce 3

Pasture Turnout (June 1): Pyramid 5, Pinkeye Shield XT4, Nasalgen 3-PMH and LongRange

Pre-weaning (Aug. 15): Vista Once, Bar Vac 7 Somnus and Mycoplasma

Weaning (Sept. 15): Pyramid 5, Bar Vac 7 Somnus, Inforce 3 and poured with Bull Spray Gold

On Nov. 15, they were Bangs vaccinated, pelvic measured and checked open and breedable. They received Bovi Shield GodI FP5/VL5 and EID Bangs tagged by Cassie Holtz out of the Hosmer Veterinary Clinic.

They have never had creep feed and have been on a 45 mCal balanced ration, salt blocks and received Safeguard dewormer in November.

Karen has been using AI and top Simmental and Red Angus bulls for 20+ years. These heifers will be AI sired by Bieber CL Stockmarket E119 and bull bred sires are from Crosshair Simmental CDI Perspective 238A sons.

Please call with any questions.
