Hello and welcome to our annual production sale. We first want to thank our past buyers for their confidence and support of our program, we are grateful for the support and friends we have made being in this business.

The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on October 3 and continued for 96 days. We take pride in representing our cattle honestly, absolutely no "fluffed" numbers or information. All the bulls are semen and soundness evaluated and are ready to go to work for you.

We are excited for you to see the bulls, as this is the best set from end to end that we have offered for you to appraise. They are bred to grow and fed to last in anyone's program. This year we again are offering a few black bulls in the offering. By utilizing embryo transfer and artificial insemination we are hoping to bring a few high-quality black genetics for our customers that utilize both black and red genetics.

We would like to invite you to take the evening off and join us on April 27, 2018, at 5 p.m. at Napoleon Live-stock. If you are unable to attend the sale we encourage you to view the bulls at the ranch any time before the sale, or give us a call and we can help select a bull to fit your needs and program. This year we have videos of the offering available online on DV Auction or our website [crosshairsimmental.com](http://crosshairsimmental.com). We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability. Thank you for your interest and support.

Ben, Cassie, Brinley, Hailey and Jaxson Kleppe

Welcome,

We at Kuhn's Red Angus are celebrating our 24th year in the Red Angus breed. Red Angus females are commanding top dollar for their overall functionality in their fertility, docility and mothering ability. These are some of the key points that we at Kuhn's Red Angus breed for!

This is one of the finest set of bulls we have to offer from birth to growth to carcass. They seem to cover all the bases. We are striving to bring you the best possible genetics by traveling throughout the nation looking for the best out there. We also try to achieve this through artificial insemination. Every female will go through the AI chute, and by doing this we believe we can give you a more complete bull!

We also have started an ET program. We have pulled out some of our older cows for this in hopes of giving you more access to them. We also 50K'd some of the bulls to give you, the customer, a better EPD picture of what these bulls are capable of. These are just a couple of pieces to the puzzle that we are trying to do in helping you to increase more profit in your calf crop.

Feel free to call or better yet stop out and take a look at the bulls and cows. Thank you for your belief and support in our program. Words can't express how much we appreciate all of you!

James and Stephanie Kuhn, Elodie, Reagen, Hudson, Brock and Kyah

**EY**

Welcome fellow cattlemen. Well the weather has been interesting and challenging this spring to say the least. A good friend of mine just reminded me that if a person doesn't have a few not-so-good days while calving ... how will we know how to appreciate the good ones? This weather will soon pass and the green grass will start growing.

The bulls in our offering have all been 50K'd, semen tested and also given a foot rot and a pre-breeding shot on 3/30/18. The bulls and females are fed a TMR ration at different rates of hay, alfalfa, silage, corn, corn distillers and a beef-developing mineral. The only creep the calves see is a medicated pellet for a couple weeks in the spring before they go to pasture. They have been fed and performance tested at our ranch.

Special thanks to the Kuhn and Kleppe families for allowing us to join forces in hopes of providing bulls and heifers that work for you. Also, thanks to Brian and Ann Moch for being our AI technicians, the Ulmers for trimming, Kool Kreft Promotions for photos and videos, and Cow Camp Promotions for advertising. Thank you to our customers for supporting and believing in our program.

Call with any questions and the cattle are always available for viewing.

Bryan and Emmy, Isaac, Alex and Betsy Huber

# Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus

## Friday, April 27, 2018 at 5 p.m. CDT

**Napoleon Livestock, Napoleon ND • 1-800-932-8821 • 701-754-2216**

### SALE DAY PHONE:

Promotion & Catalog: Cow Camp Promotions • [www.cowcampromotions.com](http://www.cowcampromotions.com)  
Printing: United Printing, Bismarck, ND

### DELIVERY:

Free delivery on bulls up to 250 miles.

### LIABILITY:

All persons attending the sale do so at their own risk. Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus assume no liability, legal or otherwise, of any accidents which may occur.

### BREEDING GUARANTEE:

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2018. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

### TERMS AND CONDITIONS:

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

### ONLINE BIDDING:

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see page 2 for instructions on registering and bidding.

**Watch & bid online for FREE at**

**DVAuction**  
Broadcasting Real-Time Auctions

**View the Auction Live!  
Bid Online... you're ringside  
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

**High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

**15 Head..... Huber EY Red Angus, Jud, ND**

Bryan Huber ..... 701-320-8054  
Emmy Huber..... 701-320-1995

All heifers are home raised and have a Red Angus base, with some having Hereford influence as well. Heifers have birthweights under 100 lbs. and will be averaging 850-950 lbs. sale day. These heifers have withstood a number of selection cuts and come straight out of our replacement pen. Heifers have been poured with Dectomax and deliced, have had a full vaccination program including a pre – breeding shot on 3/25/18. They are bangs vaccinated and have been checked for breeding soundness. They have been feed a high-roughage ration and a complete mineral program. Call Hubers with any questions.

**40 Head..... Don and Donavin Braun of Tappen, ND**

Donavin Braun ..... 701-426-2599

Red Angus-cross heifers from the heart of their replacement pen. Brauns have been using AI and top maternal Red Angus bulls. This will be a real nice set of replacement heifers weighing about 850. In addition, they have been on a full vaccination and mineral program. They will have been poured, Bangs vaccinated and checked for open and breeding soundness with a PreGard shot. Any questions, contact Donavin at 701-426-2599.

**20 Head.....Jeff and Tanya Schneider, Napoleon ND**

Jeff Schneider ..... 701-226-6685

20 Red Angus-cross heifers, home raised. They have had all their calfhooood vaccinations, both strains of pinkeye shots and have been Bangs vaccinated. They had their Preguard shot and are on complete mineral program. They also are checked open and breedable, weighing 800 lbs. Contact Jeff Schneider for more information at 701-226-6685.

**10 Head.....Kuhn’s Red Angus, Napoleon, ND**

James Kuhn ..... 701-426-6921

Purebred Red Angus cow with calves at side. We lost a pasture so we will be short on grass for these cows. They will be 3 to 7 years of age and sold as commercial. Calves will have had a One Shot BVD, 7-Way, and Inforce 3. Any questions, contact James at 701-426-6921.

A sire we purchased from Leland Red Angus in 2016. Thankfully we had him collected as he had a career-ending hip injury. He ranks in top 5% for HerdBuilder and top 3% GridMaster in the Red Angus breed. His offspring show to have good dispositions, they calve easy, do well on feed and all around very functional. His dam has several herd sires go to work for purebred operations.

Only one bull in sale offering out of a AI bred heifer that we purchased at the ND Red Select Sale from DK Red Angus.

**Buy a Bull – We'll Buy Your Tags!**

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you. All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

**RedAngus.org**  
**(940) 387-3502**

**Red Angus Feeder Calf Certification Program**

For over two decades the FCCP has been delivering results for bull customers using ONLY Red Angus bulls.

**Genetic, Source & Age**

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

**Source & Age**

Ambition was the high-selling bull in the C Diamond 2016 sale going to Bichler Simmentals. We sampled him hard this last year and were happy with the results. They are long bodied with plenty of performance. They also have great dispositions. We feel along with the growth they should be great females and expect the same out of his sons.

We bought Perspective to add calving ease and maternal to our program. We are now through our fourth calf crop using him on our registered heifers and only have assisted one birth. He is a tremendous calving-ease herd sire with above-average growth and a cherry red color. We feel Perspective is a must-use in any heifer program or to add depth, calving ease and maternal into your cow herd. Semen available through Crosshair Simmental or C Diamond Simmental.

Superman was our pick and the high seller in the Bulls of the Big Sky Sale in Montana, being raised by Little Bitterroot Ranch. We were looking for an outcross bull with depth of body, thickness and maternal and we believe Superman will do just that. We calved out his first daughters this spring and they were what we were hoping they would be - deep bodied, neat udders and look to be great cows.

## L DJF RED CARPET A388 #2763531

We bought DJF Red Carpet from Double J Simmentals in South Dakota. He is dark red and super long bodied. He is a red Dream On son and out of a donor cow for Double J. His first calf crop has exceeded our expectations with power and growth to spare. His calves are super long with lots of middle to them.

## Simmental Guide to EPDs

Courtesy of the America Simmental Association. For more information on EPDs, visit [simmental.org](http://simmental.org).

**CE** ..... Calving Ease – predicts the ease with which a bull's calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

**BW**..... Birth Weight – predicts the difference in average birth weight of a bull's progeny compared to other bulls.

**WW** ..... Weaning Weight – predicts the difference in average 205-day weight of a bull's progeny.

**YW**..... Yearling Weight – predicts the difference in average 365-day weight of a bull's progeny compared to other bulls.

**MCE** ..... Maternal Calving Ease – The ease with which a sire's daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire's daughters.

**Milk** .... Milk – predicts the milking ability of a bull's daughter. A positive value indicates above average milking ability.

**MWW** ..... Maternal Weaning Weight – predicts the weaning weight of a bull's daughter's calves in pounds. A positive value indicates higher-than-average weaning weights.

**CW**..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

**REA** .... Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal's progeny. Express in sq. inches.

**MARB** .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

**BF or FAT** ..... Backfat – predicts the average differences between an animal's progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

**YG** ..... Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

**STAY** ..... Stayability – predicts the probability that a sire's daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

**API** ..... All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

**TI** ..... Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

We calved out his second set of daughters this year. They have really nice udders, but the one thing is that they are very strong mothers always keeping a close eye on their calves. They look to be easy keeping and hard-working mother cows.

## Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW** ..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** ..... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** .... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG**..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** .... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY**.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls with a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW**..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** ..... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.
