

Evaluation

I provide tailor – made, individual learning pathways, in collaboration with children, parents and any other voices which surround a child (e.g. healthcare practitioners)

This means that evaluations and feedback are a crucial element to my service.

Please take 5 minutes to express your thoughts to me, so that your feedback can inform my planning.

Yours sincerely,

Louise

What went well?

What didn't go well?

What could be improved?

Have any targets been reached at home that is not evidenced here?

Is anything happening here that isn't happening at home?
