

November 1, 2018

Dear SESAUA Members,

As a fellow member of the Southeastern Section of the AUA, it is my distinct pleasure to support and recommend the nomination of Tom Stringer as AUA president elect for 2019. I have known Tom for 30 years and his broad range of clinical, administrative, business and political skills are valuable assets for the position of President.

Tom possesses a high level of integrity along with great interpersonal communication skills that are most definite assets for this executive post. His background is exceptional having led his private practice group as well as the Florida Urological Society and the Southeastern Section of the AUA. The leadership skills he displays, his analytical abilities for challenging health care policy issues and his background as an educator make him the perfect candidate for the President of the AUA.

I encourage all of our Southeastern Section Members to consider a vote for Tom Stringer in December.

Sincerely,

Fredy E Delacruz, MD
