November 7, 2018

Dear Friends and Colleagues,

I have known Thomas Stringer since we were surgical residents prior to our urology residency. During that time, I observed Tom as he completed his oncology fellowship, and subsequently developed a successful group practice, supported our regional and national organizations and generally committed himself to the practice of medicine and urology. We have shared a long-time friendship and many gratifying personal experiences.

Tom has consistently proven to be a bright, engaging and hardworking urologist. I think it is safe to say that all who know him can appreciate these characteristics.

Over the last three years, I have had the privilege to work with Tom at the University of Florida. He is a general urologist, resident mentor, and a team builder of the department. He was interim Chairman of the department during which time he used his leadership skills ultimately paving the way for the new chairman.

He has single handedly rejuvenated the UroGator alumni association while attending to his duties as Associate Chairman and maintaining a full teaching load and office practice.

He has also served as President of the Florida Urology Society and SES AUA. He is an active participant in the annual AUA Annual Urology Advocacy Summit. He serves on the AUA Board of Directors and recently completed a term as Chairman of the AUA Compensation Committee.

As you know, Tom is a nominee for the AUA president-elect representing the SES AUA. The election process begins in December and all active SES AUA members with a confirmed email address will receive a ballot online.

I encourage you to cast your ballot for Tom Stringer. I am absolutely certain that he is the best candidate. More importantly, I know that he will direct his efforts to the presidency with the same energy that he has exhibited throughout his career. He will be a very effective leader of our AUA organization.

Sincerely,

A handwritten signature in black ink that reads 'Michael A. Dennis, Jr., M.D.' The signature is written in a cursive, flowing style.

Michael A. Dennis, Jr., M.D.
Medical Director
University of Florida Department of Urology
