

We have two good candidates for AUA President, but I will cast my ballot for Tom Stringer. I have known Tom for 30 years and found him to be a wonderful person as well as being a very respected urologist and teacher at the University of Florida Department of Urology. He is an excellent businessman also, after serving as the Associate Chair of the University Urology department from 2014-2016. Currently, he is still teaching as well as giving his time to the AUA and to various committees of the Southeastern Section of the AUA. His devotion to the practice of Urology is solid.

Your vote would serve to elect the best choice for AUA President.

Sincerely,
Raleigh W. Rollins, M.D.
