I also join the many others in endorsing Tom Stringer for President of the AUA. My voice pales in the shadows of all the others who have already voiced their support. But I have the perspective of having known Tom the longest, and watched his career blossom into many roles, all with high achievement. When Tom was a medical student, he rotated onto the urology service where I was a junior resident. That was in 1974. Six years later it was with great pleasure that Tom joined me in private practice. He came with excellent clinical skills which improved and expanded with time. He always made room in his schedule to spend a day a week in Gainesville with the residents. His interests gradually expanded to encompass many other areas of expertise, all of which he now offers to his colleagues in the urologic community. Beyond the recognized qualifications so eloquently listed by others, Tom is a great peacemaker. He can calm any water of discontent and with compassion make friends out of enemies. IF you've never met Tom you owe yourself the pleasure. If you know Tom you will vote for him, and know the vote you cast will be for an outstanding candidate for the office of president of the AUA
