Dear Parents,

Assalamu'alaykum wa rahmatullahi wa barakatuhu

Alhamdulillah today we received Rapid Antigen Test kits from the Victorian Government, and we handed them out to all students and staff immediately. Rapid antigen testing will help students and staff to ensure positive cases are identified as quickly as possible. Testing will be conducted at home, and students and staff must report any positive result. There is no requirement to report a negative result.

If they have had COVID, they do not need a negative RAT to come back to school after their 7 day isolation period.

While testing is recommended, children can attend school as long as they are well and not in quarantine. For the first four weeks of term, twice-a-week testing on school days is strongly recommended for primary staff and students.

May Allah keep us in good health and protect us from all illnesses and diseases.

Kind regards,

Muhammed Edwars

Principal
