JACK FACTS

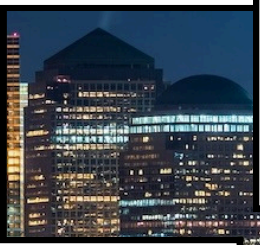

WRITTING & DIRECTING

The classic struggle of trying to be noticed continues for Spinderman in this film. with friendships and relationships being ever present.

CAST & ACTING

Did a great job at portraying the story they where given.

The story had some emotional moments with others moments leaving me with questions. Over all the pacing was filled with action and while entertaining I would have enjoyed more depth of characters and filling out the backstory.

WHY OR WHY NOT

As any classic spiderman this film opens in NYC. I loved jumping right into a recap from the end of the last film "No Way Home" - Spiderman 2021.
and the action and cameo performances by some of my favorites MCU characters.
Safe to say any Spiderman fans will likely enjoy.
