News from the March Committee Meeting

Following a recent suggestion from our members regarding a wind break, the committee have ordered blinds for the south/east corner of the patio.

Another suggestion acted on by the committee resulted in the grounds personnel purchasing a new trailer to help with the removal of the grass clippings after each mow.

We have committed to 12 months involvement with Club Map, a national body who help clubs like ours get their structure correct and develop systems to help them move forward and look after their volunteers, the most important part of any club.

To change the committee structure to a Directorship – the committee felt that this would be a major undertaking by the club and believe it needs more information and research on just what this could do for the club. We will keep you informed on any developments in this area.
