

'Art and Heart'

DICK HILDEBRAND/REGISTER

Franco Vianello works on an unnamed work in the shadow of a completed work, "The Californio." Both pieces are from the early California period. Vianello has been liberat-

ing the untamed spirits of cowboys, grizzly bears, and other trappings of the old West for more than 30 years. Sunday comes a rare opportunity to see a sampling of this Napa

artist's limited edition bronze sculptures in public at the St. Helena Hospital Foundation's fifth annual "Art and Heart" show and sale fund raiser. See Page 1C for the story.
