- Each scenario will cover the win conditions, either with victory points or objectives. The scoring will be as follows:

Major Victory = 20 Tournament Points

Minor Victory = 15 Tournament Points

Draw = 10 Tournament Points

Minor Loss = 5 Tournament Points

Major Loss = 0 Tournament Points

- After 3 games, the player with the highest Tournament Points (TP) will be declared the winner.

- If players have identical TP at the end of 3 games, the winner will be decided by the player with highest number of casualty points.

1 Casualty Point = 1 Order Dice won 10 Casualty Points = 1 TP

- Casualty Points are cumulative and roll over to the next game.
- If players remain tied after casualty points are used; the player with the fewest Order Dice lost among the 3 games will be used to determine the winner.
- If a rules question / dispute arises, please follow the listed steps below:
 - Check the Rulebook
 - Check the relevant FAQ/Errata
 - Ask the TO for a ruling
- If you believe your opponent is intentionally playing slow, please address this with your opponent first. If the slow play continues, ask for the TO.
