

Social committee met on 8/24 - present was Kelly McGee - Kricket Brophy - Taryn Leitmeyer, Heather Boone

We discussed last year's fall events and what we would like to see this year - with community involvement / input of course!!

### **Fall Fest - November 11**

October dates were too hard with other events going on in the community / being too close to Halloween (which was a concern last year). We wanted this to be a separate event from Halloween and really just be a Fall Fest.

At the fall fest we would like to have a food drive - where the food is going is TBD but thought this would be a great way for our community to give back

Maybe the idea of having a food truck at the event?

We are planning to have another community meeting like last year where people can come and share their ideas / thoughts for the event. I think we were thinking October 12 from 6-7 at my (Kelly's house) out front.

### **Adopt a Family**

We thought about the community adopting a family or two for the holiday season - we would research or poll the community to ask where to find the families - we know there are several organizations that do this. This would be based off community feedback. Would be optional, not mandatory for everyone

### **Luminaria**

This was such a success last year! We would like to bring it back again pending the city of Atlantic Beach does it again. We will just need to wait on the announcement.

Thought of maybe turning this into a bigger event - last year there was a movie being played in a driveway and another house had a hot chocolate bar, others were passing out candy. Maybe having a house decor contest.

### **Christmas Decor**

We will be decorating the front entry way again for Christmas. We have some decorations from last year, but are looking for more donations for this year! We will prob decorate after Thanksgiving!

**Community Library** - this is the little house on a stand that holds books that people can drop off books and pick one up. I reached out to Matt (in the neighborhood) for a quote and this would be about \$325. I am not sure if there is a budget for it to be voted on or if we just need to ask for donations from the community / where this could go? Ideas were the park area or near a mailbox? Somewhere central to the community.
