# Bigas O Pera

May mga nagsusulong na ang ibigay na sa mga benepisyong (beneficiaries) ng 4Ps program ng gobyerno ay bigas sa halip na cash. Ito ay proposal ng Department of Agriculture (DA), subalit binigyang-diin ng Department of Social Welfare and Development (DSWD) na mas praktikal umano ang ayudang CASH kaysa bigas.

Ayon kay DSWD Assistant Secretary for Strategic Communications Romel Lopez, and P600 monthly rice subsidy ay ibinigay sa mga qualified 4Ps members, upang maiwasan ang mahabang pila, bukod sa education at health grants.

May tama naman dito ang DSWD. Sa pagkuha ng ayuda, nakikita na ang sobrang haba ng pila, ang iba ay madaling araw pa lang, pumipila na para lang makakuha ng kakarampot na tulong, lalo na ang mga senior citizens na talaga naming nagreklamo na.

"Binibigyan ka nga ng gobyerno, pinahihirapan pa sa pagkuha," sabi ng isang 63 taong gulang na ale. "Tapos kung anu-ano pa ang mga hinihinging papel bagi ka mapasama sa listahan ng mga bibigyan, ay ano bay an?" dagdag ng isa pang senior citizen na naglalakad patungo sa pila.

Oo nga naman, minsan nakakapag-isip tuloy, bakit sa ibang bansa, ang ayuda na tunay naming nakakatuwa dahil marami ang ibinigay, inihahatid sa bawat bahay ng pagbibigyan" Hindi na pinahihirapan sa pagpila ang mga tao.

Dito sa Pinas, parang lalong pinagmumukhang kawawa ang mahihirap sa pagpila para lang makakuha ng kakarampot na ayuda. Tinitipid ng gobyerno ang na kinu-CORRUPT laang naman ng mga tiwaling opisyal. Tabi po, bato-bato sa langit, ang tamaan ay umaray na lang. Sana, mag-isip naman po ang mga kinaukulan, kaya nga tinutulungan ang mga mahihirap ay para mag-ing maayos ang buhay, hindi para iladlad ang kawalan at dustain. Lord, kayo na po ang bahala.

the disease in Cavite from January to April 2024.

Based on the data presented by Ralph Laurence Figueroa, the health education and promotion officer-designate of Cavite PHO, there are 17 cases of pertussis recorded throughout 2023. By the first quarter of 2024, cases had significantly increased to 36 diagnosed and suspected patients, resulting in 6 deaths during the said period.

"From January 2024 to March 25, 2024, we recorded a total of 36 cases. The number of cases increased significantly at around a 3,500% increase in cases. Aside from that, there were six deaths recorded during that period," Figueroa stated.

While pertussis can infect anyone, the Cavite PHO primarily focuses on vaccinating infants and children, as they are deemed the most vulnerable to the respiratory disease.

As of March 30, 2024, individuals infected by the highly contagious disease in the province range from 1 day old to 26 years old.

Figueroa explained: "We are currently prioritizing unvaccinated or under-vaccinated children, particularly those who haven't completed their primary dose. We cannot deny that we still have shortages of vaccines against pertussis at the moment, which is why we prioritize those unvaccinated or

## 'Child-Friendly' LGUs recognized << P1

Government (DILG) IV-A and the Department of Social Welfare and Employment (DSWD) IV-A, recognized 63 LGUs in Calabarzon during the 2022 SCFLG awarding ceremony on April 4, for their exemplary performance in enacting programs and policies aimed at protecting children from abuse. The 2022 SCFLG assessed all 142 local government units in the Calabarzon region through the following indicators categorized under the four categories of children's rights: survival, development, protection and participation,

and governance. In a message of support, Agoncillo, Batangas Mayor Cinderella Valenton Reyes said local government units must protect the rights of children and not make compromises on cases of child abuse.

"The law dictates that we cannot make compromises in cases of child abuse. We, as elected officials, have to take a stand. We cannot make compromises on cases like these," Reyes said.

The local chief executive believes that local leaders have a moral obligation to be an instrument for the welfare

and development of children.

"We are all tasked by our Lord and the law to be vigilant and protect our youth. When the time comes, it is very difficult for a victim to find their voice and ultimately speak out against the abuse inflicted upon them," Reyes added.

Agoncillo is one of the 11 cities and municipalities in Batangas Province that received the 2022 SCFLG. They are joined by 13 LGUs in Laguna, 10 in Rizal Province, and 15 in Quezon Province.

Meanwhile, Carmona stands with the 14 LGUs in Cavite province to receive the award, having achieved a perfect score of 100 points in the 2022 audit.

Cavite 5th District Representative and former Carmona Mayor Roy Loyola commits to advance child causes in his constituency.

Over the years, we have worked tirelessly to create an environment where children

can go and realize their potential. We have strived to enable young people to take charge of their own lives, make informed decisions, and be engaged in the processes that affect them," the lawmaker declared.

Mylah Gatchalian, assistant regional director for operations of DSWD IV-A, emphasized that towns and cities that are considered "child-friendly" always include children in their programs, legislation, and services.

"Great leaders who tirelessly create vibrant spaces emphasizing inclusivity and ensuring children of all abilities can participate. Leaders who are champions of child-friendly local governance, giving priority to children in planning, budgeting, legislation, and delivery of services to assure that the rights of a child are realized," Gatchalian said. community's development. It stands as a symbol of progress and unity, providing a versatile space for various activities and services that will enhance the quality of life for the residents.

The inauguration and blessing ceremony of the Multi-Purpose Building in Aniban 1 showcased the collective effort and

commitment of the Office of Congresswoman Lani Mercado Revilla, partners, and community members in creating a facility that caters to the needs of the community. under-vaccinated children." Children ages 1 and a half months old, 2 and a half months old, and 3 and a half months old need to be administered with the Pentavalent vaccine. The vaccine requires three doses and should be completed within a 4-week interval between doses to protect against pertussis. In general, the provincial government of Cavite maintains close coordination with other frontline government agencies, including the Department of Health for the timely reporting of cases, the status of vaccine delivery, and other supplies needed by the province. Along with getting vaccinated to boost defenses against pertussis,

the public is encouraged to wear masks if experiencing a cold or cough, consume nutritious food, and ensure adequate sleep or rest.

As of April 6, 2024, despite continuous measures to control the contagious disease, the DOH-Regional Epidemiology and Surveillance Unit has reported 59 confirmed and suspected pertussis cases in Cavite, with 8 fatalities due to the disease. (CO/PIA-4A)

## PBBM lauded for 'monumental' diplomatic win in trilateral summit

Filipinos must continue supporting the Marcos administration and work hand in hand toward a future of peace, progress and prosperity for the country.

President Ferdinand R. Marcos Jr.'s trilateral meeting with United States President Joe Biden and Japanese Prime Minister Fumio Kishida in Washington, D.C. outcome of the trilateral meeting holds immense importance for the Filipino people, the economy and national interest, particularly in the context of the West Philippine Sea (WPS) issues.
