

TOTAL LOCKDOWN NG CAVITE DI NA MATUTULUY: GOVERNOR

Hindi na matutuloy ang dapat sana ay 2 linggong total lockdown ng buong lalawigan ng Cavite, sabi ngayong Miyerkoles ni Governor Jonvic Remulla.

Binawi ng gobernador ang planong total lockdown matapos umanong mapagtanto na hindi kakayanin ng mga lokal na pamahalaan na suportahan ang pagkain ng mga taga-Cavite sa loob ng 15 araw. Humingi ng paumanhin si Remulla sa naging kalituhan. "Ako talaga ang nagkamali doon," aniya.

Ipinaliwanag din ni Remulla na isinaalang-alang niya na hindi lahat ng taga-Cavite ay may kakayahang mag-imbak ng pagkain.

Hindi na rin umano aabot ang pondo ng mga lokal na pamahalaan para pakainin ang 4.5 milyon residente ng lalawigan.

Naic mayor gives out rice to residents

Mayor Junio C. Dulalan continues to distribute aid to his fellow citizens in Naic, Cavite in fulfillment of his promised government grant of 25 kilos of rice to the people of Naic.

Beneficiaries of assistance are the following areas: Barangay Sapa; Barangay Bucana Malaki; Barangay Bagong Kalsada; Barangay Mabulo; Barangay Bucana Sasahan; Barangay Latoria; and Barangay Ibayo Estacion. The 23 barangays not mentioned will be shared in the next following few days. These are the following villages; Balsahan; Bancaan; Capt. C. Nazareno (Poblacion); Calubcob; Gombalza; Halang; Humbac; Ibayo Silangan; Kanluran; Labac; Makina; Malainen Bago;

LGU Imus enhances COVID-19 counter measures

Cluster Scheduling, a more stringent measure for EE-ECQ in Imus

Barangays in the City of Imus were divided into two for Cluster Scheduling which allows only three days in a week for Quarantine pass holders to go out thus limiting the movement of the residents.

IMUS CITY, Cavite Apr. 29 (PIA) -- Imus City Mayor Emmanuel L. Maliksi conveyed the Cluster Scheduling, a more stringent measure for the implementation of the Extended Extreme Enhanced Community Quarantine (EE-ECQ) in the city.

Mayor Maliksi mentioned this during his interview early this morning on #LagingHanda Network Briefing with PCOO Secretary Martin Andanar aired on PTV 4 and FB Live.

The said Cluster Scheduling will be effective on May 1, 2020 until May 15, 2020 in

support of the national government's intention to make the two weeks extension of the ECQ more effective.

The mayor elaborated that the total 97 barangays in the city were divided into two with the first cluster scheduled on Mondays, Wednesdays & Fridays (MWF) and

the second cluster schedule during Tuesdays, Thursdays & Saturdays (TTHS).

Based on his previous announcement in his official Facebook page, the EE-ECQ entails Quarantine Pass holders will only be allowed

>> P3

IMUS CITY, Cavite Apr. 24 (PIA) --Imus City Mayor Emmanuel L. Maliksi met recently with members of the Sangguniang Panglungsod, officers of concerned groups, and bureaus to discuss present COVID-19 situation in the city and refine strategic measures already being implemented.

Mayor Maliksi elaborated on the issue of access to food and basic necessities with the continuance of the market day schedule per barangay for both public markets in Imus and Bahayang Pagasa.

"Mahabang pila pero maluwa na palengke," the Mayor remarked.

(Long queues but comfortable marketplace)

This means controlling the number of city residents going in and out of the mar-

ket while ensuring observance of physical distancing.

There are more than 20 mobile markets for accreditation/orientation in addition to the 53 mobile markets

Super Strict Extended -ECQ effected in Alfonso town

ALFONSO, Cavite May 2 (PIA) -- The municipality of Alfonso headed by Mayor Randy Salamat placed the town under Super Strict Extended- ECQ pursuant to the provincial government's 14-day Strict Quarantine.

According to the guidelines for the implementation, Quarantine passes issued on March 15 - May 1 will be valid until May 4, 2020 since new (color coded) Home Quarantine Passes will be issued on May 2 & 3, 2020.

Twenty four (24) hour curfew will be strictly implemented in the town, and only HQP holders will be allowed to go out or residences up to 6pm during their cluster schedule and only authorized personnel like frontliners, foodhandlers, employees of banks and other financial services institutions,

farmers and those engaging in relief operations are allowed to go out of their houses.

Services provided by the LGU will continue like the Palengke on Wheels, Botika on Wheels in coordination with the Sangguniang Kabataan (SK) while shuttle service will be provided for those who need to accomplish bank and other financial transactions since private vehicles will not be allowed passage beyond Crossing Alfonso checkpoint. Issuance of other QP like Essential Service

>> P3

Palengke on Wheels will continue to provide Alfonsoños safe access to food under the SSE-ECQ effective May 3 - 15, 2020.

Man vs. Nature and a history of pandemics

By: Paolo Manuel C. Fule

Is Mother Nature fighting back at us now? Throughout the course of human history, infectious diseases that causes global pandemics has repeatedly teaches us lessons we people almost never learned.

In order to refresh us and learn once more from the lessons of history, here are some details of the past pandemics, their origin and how they wreak havoc in humanity.

The Bubonic Plague was the worst pandemic to hit humanity in the course of history that started in about 1347. Over the next five years, the Black Death would kill more than 20 million people in Europe—almost one-third of the continent's population and claiming around 200 million lives around the world. The Bubonic Plague attacks the lymphatic system, causing swelling in the lymph nodes. If untreated, the infection can spread to the blood or lungs. The Black Death was terrifyingly, indiscriminately contagious: "the mere touching of the clothes," wrote Boccaccio, "appeared to itself to communicate the malady to the toucher." The disease was also terrifyingly efficient. People who were perfectly healthy when they went to bed at night could be dead by morning. Today, scientists understand that the Black Death, now known as the plague, is spread by a bacillus called *Yersinia pestis*. (The French biologist Alexandre Yersin discovered this germ at the end of the 19th century.)

They know that the bacillus travels from person to person through the air, as well as through the bite of infected fleas and rats.

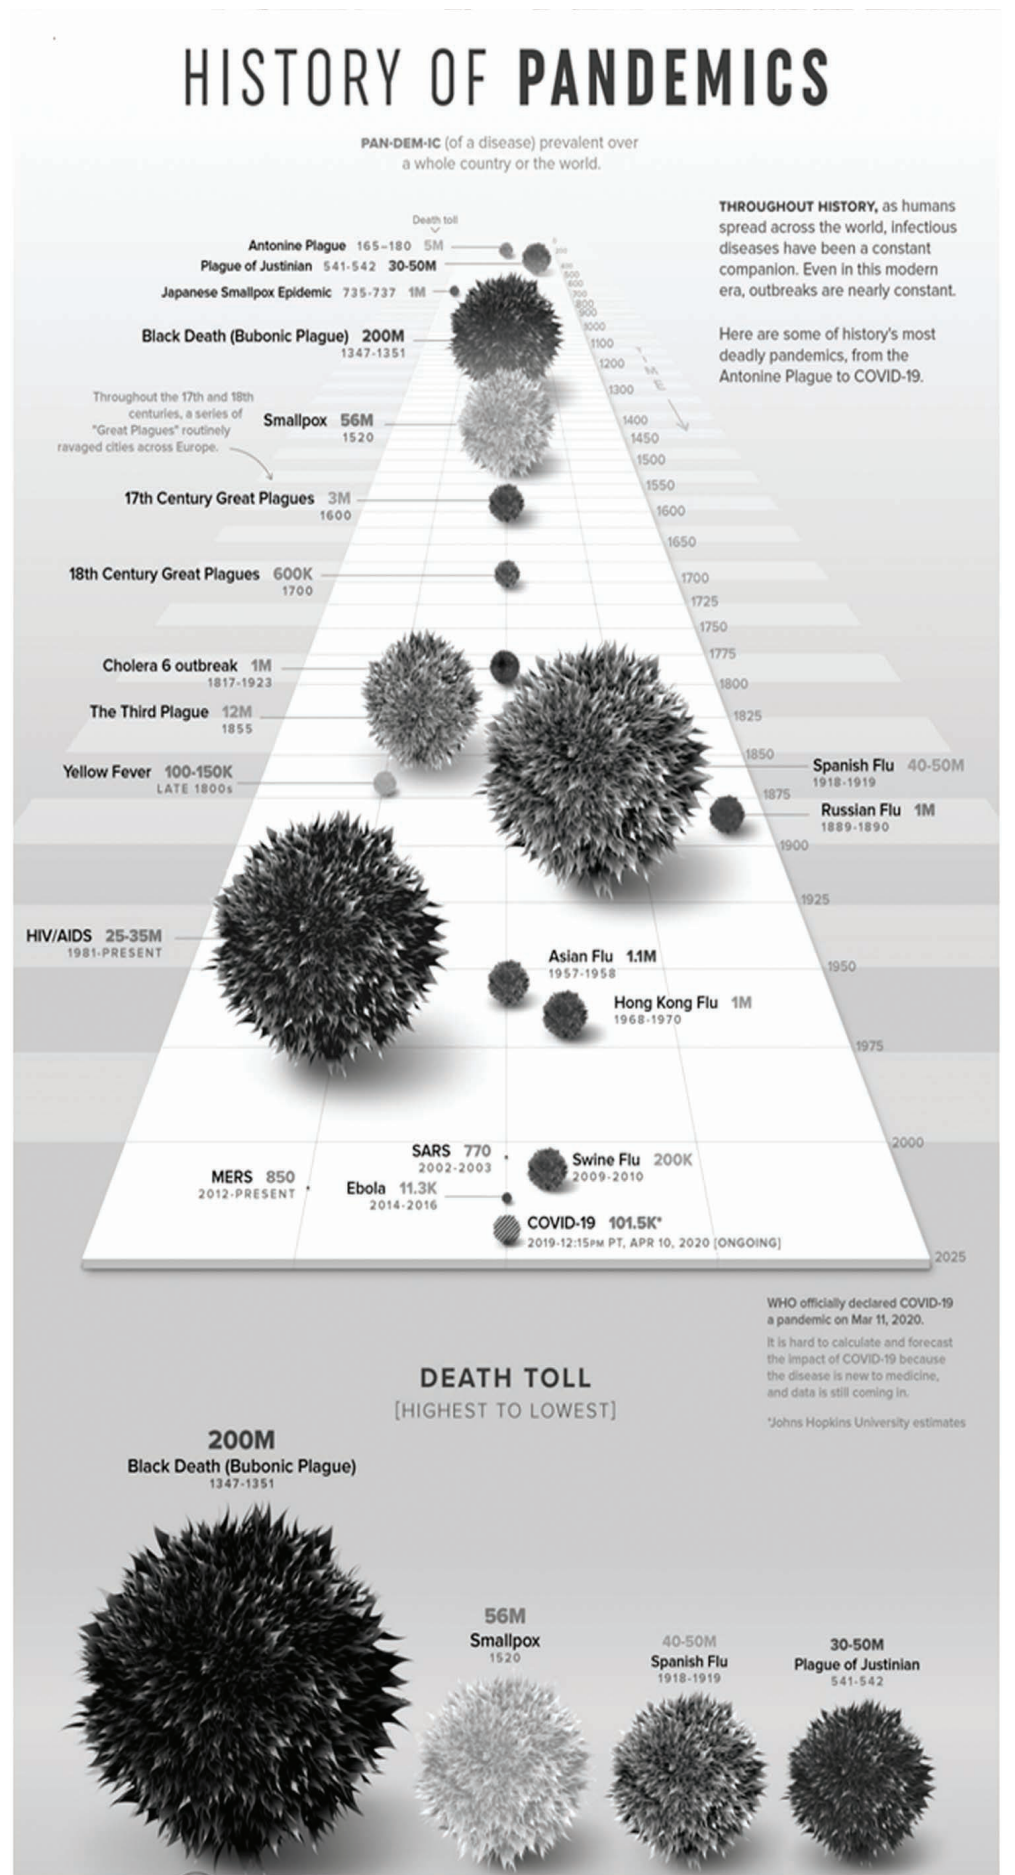

Next stop, one of the most recent and worst pandemic in memory: The Spanish Flu. Some experts say that the virus that caused the 1918 influenza pandemic probably sprang from North American domestic and wild birds, not from the mixing of human and swine viruses. An estimated 50 million people died around the world during the pandemic.

The 1918 influenza pandemic was the most severe pandemic in recent history. It was caused by an H1N1 virus with genes of avian origin. Although there is not universal consensus regarding where the virus originated, it spread worldwide during 1918-1919. Citizens were ordered to wear masks, schools, theaters and businesses were shuttered and bodies piled up in makeshift morgues before the virus ended its deadly global march.

With the advent of a new and deadly coronavirus in Covid19 in which up to this date, there are 3 million cases and 235,000 deaths around the world. In the public mind, the origin sto-

ry of coronavirus seems well fixed: in late 2019 someone at the now world-famous Huanan seafood market in Wuhan was infected with a virus from an animal.

The rest is part of an awful history still in the making, with Covid-19 spreading from that first cluster in the capital of China's Hubei province to a pandemic that has killed about 211,000 people so far. Scientists say it is highly likely that the virus came from bats but first passed through an intermediary animal in the same way that another coronavirus – the 2002 Sars outbreak – moved from horseshoe bats to cat-like civets before infecting humans. And now we are here, uncertain of a world under the cloud of another pandemic, another global catastrophe not felt since World War II. Nature or man-made or whatever experts say on the matter, what matters most now is that the virus must be contained so as to slow down the spread of the new virus, patients must be cured, and most importantly the world needs a vaccine to end the coronavirus. Something easier said than done but with the help of God, I know we can overcome this pandemic as with the others that came before.

LGU Imus enhances COVID-19 << P1

already operational all over the city that helps to decongest the markets and consequently limit the movement of residents.

Another alternative means is the Online Grocery initiated by YES Coop for the door-to-door delivery of foods and basic essentials with 10 e-trikes accredited

for delivery. Meanwhile, the 'Libreng Sakay' transportation scheme is extended with 30 vans used to shuttle almost 220 frontliners within the city and to NCR every day, while 110 tricycles transport residents to public markets, groceries or drugstores.

The city buses with two routes: Malagasang to Imus

Palengke, and Bahayang Pagasa to Imus Palengke still roll the main roads.

Designated drivers who alternately drive these service vehicles are paid by the local government to give them a source of living while providing transportation to the residents.

Mayor Maliksi reported

the Sangguniang Panglungsod has approved the setting-up of a Testing Facility which he hopes will be functional by May 8, 2020.

"If ever, we will be the first LGU to have our very own testing facility," Mayor Maliksi proudly stated.

(Ruel Francisco, PIA-Cavite)

Naic Mayor gives out Rice << P1

Malainen Luma; Molino; Munting Mapino; Palangue 1; Palangue 2 and Palangue 3; Sabang; San Roque; San-

tulan; Timalan Balsahan and Timalan Concepcion. The Municipality of Naic is a 1st class municipality in the

province of Cavite, Philippines. Municipality of Naic is politically subdivided into 30 barangays. According to

Total lockdown in Cavite << P1

Sa halip, calibrated community quarantine na lang ang ipatutupad sa lalawigan mula Mayo I hanggang Mayo 15, kung saan mahigpit ang pagpapatupad ng physical distancing. Ipagbabawal din

umano ang paglabas ng bahay, pagpunta sa mga pamublikong lugar nang walang face mask, at paggamit ng quarantine pass para tumawid sa mga bayan at lungsod.

Minimum tolerance

umano ang pahiralin ng mga awtoridad at aarestuhin ang sino mang mahuhuling lumalabag sa mga patakaran.

Sa bayan ng Noveleta, dahil kapos na sa pondo ang local government, inihay-

ag ni Mayor Dino Chua na ido-donate na lang niya ang 2 taong sahod niya katumbas ng higit P2 milyon. Sa huling tala, nasa 169 ang positibo sa COVID-19 sa Cavite, kung saan 23 ang namatay.

The views and opinions expressed in this newspaper are those of the authors/writers/contributors and do not necessarily reflect the official policy or position of the owner and the management.

Paki-usap sa POLO Taiwan: Easy lang sa OFW

INSPIRASYON SA BUHAY: "... Nangyari nga ang lahat ng ito upang matupad ang sinabi ng Panginoon sa pamamagitan ng propeta, 'Maglililihi ang isang birhen at magsisilang ng isang sanggol na lalaki, at tatawagin itong Emmanuel' (ang kahulugan nito'y 'nasa atin ang Diyos)'..." (Mateo 1:22-23, Ang Tanging Daan Bibliya).

PAKI-USAP SA POLO TAIWAN: EASY LANG SA OFW: Dahan-dahan naman. Easy lang. Yan po ang unsolicited advice, o boluntaryong payo natin mula sa BATAS, o ang Buklod ng mga Abogadong Tagapagtaguyod ng Adhikaing Sambayanan, at LIGHT, o ang Lawyers Instructed on Godliness, Humility, and Truth, para sa Philippine Overseas Labor Office (POLO) sa Taichung City, Taiwan. Tungkol po ito sa isinusulong nito na deportation o pagpapa-uwi ng isang overseas Filipino worker (OFW) na nasa Taichung City, dahil

lamang sa mga social posts ng OFW na diumano ay bumabatikos sa Pangulong Rodrigo Duterte. Okay, maaaring nakakasira nga ang mga posts ng OFW, at maaaring ginagawa niya ito sa udyok ng mga kalaban ni Duterte.

Pero kung nakakasira, o labag man sa batas ang mga posts, hindi po makatwiran ang paggamit ng puwersa ng gobyerno upang alisan agad ang OFW ng hanapbuhay. Sa halip, kasuhan na lamang siya, isailalim siya sa paglilitis, kung saan bibigyan siya ng pagkakataon na ipagtanggol ang kaniyang sarili. Entitled pa din naman ang OFW ng tinatawag na presumption of innocence, at right to due process, mga karapatang ibinibigay natin maging sa mga mandarambong sa gobyerno. DEAR ATTY. BATAS: "Good day Atty. Batas Mauricio. We are a group of law students in a Metro Manila university. What we wish to ask from your group pertains to the rights of a person accused of a crime in the Philippines, in the light of recent developments affecting the country due to the COVID 19 pandemic. We have noted a surge of arrests and detention of people allegedly violating current emergency laws to address the problem. What can you say about this?"

Thank you for this question, dear law students. We at BATAS and LIGHT have to admit there is an ongoing robust debate now about the arrests and detention of people accused of violating emergency laws relative to COVID 19. One view has it that the rather harsh laws are necessitated by the dictates of the times--the deadliness of the virus, and it's easy transmission among the populace. Another view, on the other hand, denounces not the harshness of the law, it being admitted that harsh laws are necessary to contain the disease as fast as possible to avoid more deaths among Filipinos, but the apparent ease of abuse of those laws in the hands of the law enforcement authorities tasked to implement them.

Which of these two views is the more rational, or more legal, in a manner of speaking? As far as BATAS and LIGHT are concerned, these two views are in agreement about the

necessity of having effective legal measures to curb the spread of COVID 19 which has proved to be a killer of hundreds of thousands already. What everyone should be vigilant about now is the overzealous enforcement of those measures that unnecessarily curtail the rights and welfare of our people.

MGA PANGYAYARI SA BIBLIYA NA NAGPAPATOTOO NA SI JESUS ANG DIYOS AT TAGAPAGLIGTAS, AMA, ANAK, AT ESPIRITU SANTO, NA BUMABA MULA SA LANGIT (PART 27): Sa Mateo 1, mababasa natin doon ang kumpirmasyon na ang pagsilang ng Diyos, sa anyo Ni-yang si Jesus, sa daigdig na Ito ay ang katuparan ng Kaniyang pahayag, sa Kaniyang anyong Ama, sa Isaias 7. Ganito ang kumpirmasyong nagmula sa Mateo 1: "Nangyari nga ang lahat ng ito upang matupad ang sinabi ng Panginoon sa pamamagitan ng propeta, 'Maglililihi ang isang birhen at magsisilang ng isang sanggol na lalaki, at tatawagin itong Emmanuel' (ang kahulugan nito'y 'nasa atin ang Diyos)'..."

Kung pag-aaralang mabuti ang bahaging ito ng Mateo 1, makikita natin na hindi ordinaryong pagsilang ang isinalarawan doon. Magiging maliwanag din sa atin na hindi tao ang ipinaglihi at isinilang ng birhen, o ni Maria. Ang ipinaglihi at isinilang ni Maria ay ang Diyos mismo--dahil ito ang ipinahayag sa Mateo 1: na ang sanggol na isinilang ay tatawaging "nasa atin ang Diyos."

PANALANGING MAGLILIGTAS SA MGA PINOY VS. COVID 19: Manalangin po tayo: "Panginoong Jesus, tinatanggap at pinananampalatayaan kita na Ikaw ang aking Diyos at Tagapagligtas na Siyang Diyos Ama, Anak, at Espiritu Santo, na bumaba mula sa langit, tumungo sa lupa sa anyo ng tao, at tinanggap ang parusa sa aking mga kasalanan. Naniniwala ako na nagpakilala kang ang Iyong Pangalan ay Jesus, at sa Iyong Pangalan lamang magkakaroon ako ng kaligtasan sa buhay, lalo na sa COVID 19. Sa iyong Pangalang Jesus, iligtas mo ako, ang mga mahal ko sa buhay, at ang buong mundo, laban sa COVID 19, Amen."

Cavite targets 15,000 coronavirus tests a day with help from 3 universities

TARGETED TESTING. Cavite conducts targeted testing among residents considered 'high vectors of disease' after completing tests among probable cases. File photo by Dennis Abrina

Cavite province is setting up additional coronavirus testing laboratories to achieve a testing capacity of up to 15,000 tests a day.

It is more than the government's missed target - 8,000 tests a day - for April.

"Ang target ng Cavite ay sa 10 linggo ay magkakaroon ng kakayahan para sa 10,000 to 15,000 tests a day. Kapag 100% capacity na tayo ay test ngayon, resulta ay bukas," Governor Jonvic Remulla said in a message on Facebook on Thursday,

April 30. (Cavite's target in 10 weeks is to have the capacity to test 10,000 to 15,000 people a day. Once we reach 100% of our capacity, if we do the test today, we will have the results tomorrow.)

The province has an ongoing partnership with the De La Salle Medical and Health Sciences Institute in Dasmariñas, whose laboratory has almost completed its accreditation for coronavirus testing.

On Thursday, Remulla also announced partnerships with the Adventist University of the Philippines in Silang and Cavite State University in General Trias. He said both universities also have laboratories and personnel equipped to conduct coronavirus testing.

Remulla said the province cannot rely on just one laboratory. "Kung bumagsak ang kapasidad ng isang lugar ay titigil ang serbisyo sa lahat (If our sole testing laboratory can't conduct tests because something happened, all the services will stop)," he said.

The province will also increase its swabbing stations to 25 locations, he said.

Remulla said the province will test as many Caviteños as possible. After testing probable cases and emergency frontliners, the province will prioritize testing people who are considered "high vectors of disease" such as food handlers and grocery workers.

Drivers of public transportation and workers in ecozone factories will follow.

Remulla said tests for Cavite residents who work in Metro Manila have yet to be discussed and agreements with their employers will be needed.

Super strict extended-ECQ << P1

Providers' pass and Local Farmers' pass can be availed at the offices of the Municipal Administration and Municipal Agriculture respectively starting today May 1, 2020.

Meanwhile, establishments that will remain operational are those that provide

food, water, gas and financial services from Mondays - Saturdays only because no one is allowed to go out on Sundays. Travel passes issued by the Office of the Mayor are required for health emergency cases with coordination from the Municipal Health

Office and likewise, in case if OFW family members or relatives need to be shuttled from the airport. Mandatory wearing of face mask when out of the house will be strictly implemented and loitering and groupings outside residences are prohibited. Ef-

fectivity of the SSE-ECQ will be from May 3 - 15, 2020 or until lifting of the Enhanced Community Quarantine and any violation of the quarantine protocols will be sanctioned according to articles in the penal code. (Ruel Francisco, PIA Cavite)

Cavite send medical team << P1

(DOH) for the Cavite/DLSM-Center for Disease Control (CD/CDC) laboratory's Level 5 accreditation, Gov. Remulla authorized the test to be conducted.

"Eventhough the DOH won't accept it as final, the human cost of not knowing is great. Undiagnosed, untreated, non-isolated cases will spread the virus even further," the governor justified.

He added further, "There are no borders in pandemics. What happens in Laguna affects Cavite. What happens in Cavite eventually affects Laguna. We are all in this crisis together. In a few weeks, we will have enough capacity for our target testing program and a little more to help our neighbors in CALABARZON." Meanwhile, Laguna Governor Ramil Hernandez expressed his gratitude to

Governor Remulla and to the Caviteños as well for the help extended to his afflicted constituents. In an open letter posted in his Facebook account, Governor Hernandez stated that he and Governor Remulla discussed about the accommodation for the COVID-19 patients from Laguna since their testing center is still under construction. "Totoo pong nag-uusap kami ni Gov. Jonvic Remulla tung-

kol sa pag-accommodate ng mga taga-Laguna habang ongoing pa ang construction ng sarili naming testing center sa Laguna na minamadali na naming matapos," said Gov. Hernandez.

This pandemic had crossed borders, so does the innate nature of generosity and concern for each other where neighbors help neighbors. (Ruel Francisco, PIA-Cavite)

Cluster scheduling, a more << P1

to go out on errands for food and basic essentials, and for bank and other financial transactions for three (3x) times a week only depending on their cluster schedule. No one is allowed to go out

during lockdown days and on Sundays. Business establishments were also included in cluster scheduling and will not be operational also during lockdown days.

"Tinitiyak ang maay-

os at mahigpit na pagpapatupad ng mga nabanggit na alituntunin ng mga kawani ng barangay, mga kapulisan at sundalong nakatalaga sa ating lungsod," ani Mayor Maliksi. (Proper and strict

implementation of these guidelines will be ensured by the barangay officials and tanods, Imus PNP and personnel of the Armed Forces deployed in our city.) (Ruel Francisco, PIA-Cavite)

Cavite Calibrated Quarantine Operations in place

Additional AFP personnel were asked to be deployed for the implementation of the Calibrated Quarantine Operations in Cavite.

TRECE MARTIRES CITY, Cavite Apr. 29 (PIA) -- Hours after Cavite Governor Jonvic Remulla declared a 14-day strict quarantine for the entire province of Cavite, he announced the implementing guidelines for the Calibrated Quarantine Operations.

The local chief executives (LCE) in a meeting held yesterday fully supported the guidelines that will take effect at 12 midnight of April 30, 2020 until 5 am of May 15, 2020. Based on the guidelines, a 24-hour curfew will be implemented with exemptions for the following: Quarantine pass holders designated to do errands for food and basic essentials

until 6pm only; frontliners/ medical healthworkers; food handlers in public markets, supermarkets, groceries and fish ports; employees of banks and other financial institutions and volunteers and employees in the relief operations. Business establishments like banks and other financial services, restaurants for food delivery and take-out services, and gas stations

will be allowed to operate. The enhancement of quarantine pass protocol prohibits stand-by of more than four personnel (excluding PNP/AFP personnel) in checkpoints; standy-by outside the house, loitering and grouping on the streets even with quarantine passes; exercise should be done within residence, any other exercises like jogging, zumba,

CAVITE, Philippines -- The municipality of Noveleta in Cavite will open on Saturday, May 2, its first public hospital with a ward dedicated to patients suffering from the novel coronavirus disease (COVID-19).

The Noveleta Public Hospital, which can accommodate 20 coronavirus patients, is located in Barangay San Jose 1 across the street from the municipal hall and public market. The two-story building stands on a 370-square-meter property donated by Mayor Dino Chua on April 3.

Noveleta has had 3 confirmed cases of coronavirus infection, who have all been declared out of danger but remain under 14-day monitoring.

Since these cases, Noveleta has not recorded any new ones for 3 weeks, said Dr Hilda Bucu, the municipal health officer.

KAWIT MAYOR AUCTIONS VINTAGE CAR TO RAISE FUNDS FOR COVID-19

Mayor Angelo Aguinaldo's vintage 1969 Dodge Charger R/T is up for auction to raise funds for the town's COVID-19 response and to help Kawiteños particularly the senior citizens. (Photo from Cavite Mayor Aguinaldo FB Page)

KAWIT, Cavite Apr. 25 (PIA) -- Municipal Mayor Angelo Aguinaldo recently announced he will sell his favorite vintage car, a 1969 Dodge Charger R/T thru auction.

This is to raise funds for the town's COVID-19 response and to help his fellow Kawiteños particularly the senior citizens.

"Mahirap man pong mawalay sa kotseng matagal kong iningatan, pero handa po akong magsakripisyo para sa kapakanan ng ating bayan. Ang kikitain po sa auction na ito ay ilalaan natin sa pagsuporta sa mga Kawiteñong senior citizen na kasama sa vulnerable sector," said Mayor Aguinaldo.

(Though it is hard to part with my car which I cared for so long, I'm ready to sacrifice for the sake of our town. The proceeds from the auction will be used to support our Kawiteño senior citizens who belong to the vulnerable sector.)

He revealed the highest bid so far amounted to Php5.9M from a Chinese national. The bidding starts at Php4.2M and remains open until Sunday, April 26, 2020.

Aguinaldo was one of the LGU chiefs in the province who pledged their salary to help the affected families during the early part of the COVID-19 crisis. He said he will donate his salary from March until the end of the pandemic. (Ruel Francisco, PIA-Cavite)

As of May 1, Cavite Governor Jonvic Remulla reported, the province has had 190 confirmed cases, including

the 3 in Noveleta. The Philippines has had 8,772 cases, including 579 deaths and 1,084 recoveries.
