Department of Public Works and Highways (DPWH) and the Japan International Cooperation Agency (JICA) to strengthen disaster and flood preparedness among the youth under the Cavite Industrial Area-Flood Risk Management Project (CIA-FRIMP).

Mr. Keisuke Ono, a lecturer at the Tohoku Institute of Technology in

Japan, led the session on flood education using a 3D city model within Minecraft.

Ono emphasized the benefits of Minecraft's three-dimensional features in helping students and the younger generation better understand disaster management and identify flood-prone areas, compared to traditional two-dimensional maps.

"Minecraft is good for kids to study which areas are endangered during floods and which places are safe under flood conditions," Ono said.

"This is very important for providing collective information about natural disasters because the young generation of the Philippines is vital not just for this country but also for the

world in building a better future," he added.

According to CIA-FRIMP, the interactive lecture aimed to instill disaster resilience among the youth by immersing them in a hands-on, visual learning experience. Through the 3D city model, students were able to simulate real-life flood scenarios, identify flood-prone areas, and

explore evacuation routes and risk reduction strategies.

Using the gamified approach, Ono guided students through discussions on the causes of flooding, structural and non-structural mitigation measures, and community-based strategies for disaster risk reduction.

For the teachers of Emiliano Tria Tirona Memorial National Integrated High School, the Minecraft online video game enabled students to better appreciate disaster management lessons.

"The interactive application captured the students' attention, making the learning experience both enjoyable and informative. By incorporating engaging elements, the app facilitated a deeper comprehension, allowing the students to connect with the material in an exciting way," the

school stated. The Provincial Government of Cavite supported the initiative, recognizing it as a step toward building a disaster-resilient community.

"This activity underscores the commitment of CIA-FRIMP, the Provincial Government of Cavite, and the local government of Kawit.

By empowering the younger generation with knowledge and practical tools, this initiative will enable them to create safer communities ready to face the challenges of natural disasters," the provincial government said.

CIA-FRIMP is a collaborative initiative between the DPWH and JICA aimed at addressing flood risks and enhancing disaster preparedness in the Cavite Industrial Area. (FSC, PIA4A)

LRT-1 fare << P1

decided by the Department of Transportation (DOTr), with its possible implementation to begin by April.

In a Bagong Pilipinas Ngayon interview over PTV on Thursday, DOTr Secretary Jaime Bautista said the fare hike petition will go through public consultation and will be studied by both the Light Rail Transit Authority (LRTA) and the DOTr's Rail Regulatory Unit (RRU).

"Kaninang umaga po ay nagkaroon ng unang hearing ang RRU para dinggin nga iyong petition, kasi po kailangang mayroon consultation iyan eh, bago natin payagan na mag-increase and sa kasalukuyan po ay continuous iyong consultation (This morning, the RRU held a hearing for the petition because there needs to be a consultation before we allow an increase and for now, the consultation continues)," Bautista said.

If approved, he said, the fare hike will likely be implemented by April at the earliest.

"Kung sakali mang magkakaroon ng increase, ang pinakamaaga nito ay siguro start ng second quarter, mga April (If there will be a fare increase, the earliest implementation will probably be by the second quarter, around April)," he added.

Bautista said the concession agreement signed by the government and LRMC in 2016 allows for a fare increase at the LRT-1 every two years.

However, he said a fare increase for the LRT-1 was only approved in 2024 despite repeated petitions by the LRMC in 2018, 2020, 2022, and 2024.

"Dapat naman siguro

ay i-respect ng gobyerno at dapat payagan din natin sila magkaroon ng increases dahil tumataas din naman ang kanilang cost of operations (Perhaps the government should allow for a fare increase since their cost of operations are increasing)," he said.

Part of these increased costs is the LRT-1 Cavite Extension project, which has increased its capacity with an additional 80,000 passengers and five more stations since its inauguration in November.

"Dati it takes siguro almost an hour because of traffic from Baclaran to Sucat. Ngayon kapag sumakay sila sa train, mga 15 minutes (In the past, it would take almost an hour to travel from Baclaran to Sucat because of traffic. Today, it's a 15-minute train ride)," he said.

A study by the Japan International Cooperation Agency (JICA) found that vehicular traffic in the National Capital Region (NCR) costs the economy PHP3.5 billion per day.

"With the operation or the extension of LRT 1, medyo mababawasan po iyong economic cost ng traffic sa atin (the economic cost of traffic will slightly lessen)," he said.

On Wednesday, the LRMC, operator and maintenance provider of LRT-1, announced its filing of a petition for a fare increase.

Bagong Alyansang Makabayan chair Renato Reyes opposed the proposed fare hike "in unequivocal terms" and said the petition had an average fare increase of PHP7.48 per passenger. (PNA)

town. Viado also directed prosecutors from the BI Legal Division to conduct a preliminary investigation of the 23 Chinese and six Myanmar nationals.

"Thereafter, the aliens will be charged with immigration violation cases before the BI board of commissioners which will issue the orders for their deportation and their inclusion in our blacklist, effectively banning them

from re-entering the country," the BI chief said.

Law enforcers caught the foreigners working at various PC work stations that were used for their online gaming operations.

"Physical custody of these foreigners will be with the PAOCC (Presidential Anti-Organized Crime Commission) but they will be under the legal custody of the BI due to ongoing deportation proceedings,"

Viado said.

At the same time, the bureau is studying the filing of a case of harboring illegal aliens against the renters of the resort.

"If during our investigation, we discover that they have knowingly harbored these illegal workers, then they will face cases for violation of the Philippine immigration law," Viado said. Section 46 of the Philippine Immigration

Act of 1940 prohibits the harboring of illegal aliens. Violators may face up to 10 years in prison.

Viado said the arresting team encountered the illegal foreign workers during an operation to capture a Chinese fugitive who was suspected to be hiding in the resort, but the latter was not around when the raid took place. (PNA)
