WORD FROM PASTOR SHANE

When Better Is Best

A New Journey Through Hebrews Begins September 6

The word better appears again and again throughout the book of Hebrews. We are told that Jesus offers a better hope, establishes a better covenant, makes better promises, provides a better sacrifice, and prepares a better country for His people. But the message of Hebrews is even greater than that: Jesus is not simply better than everything that came before Him—Jesus is best.

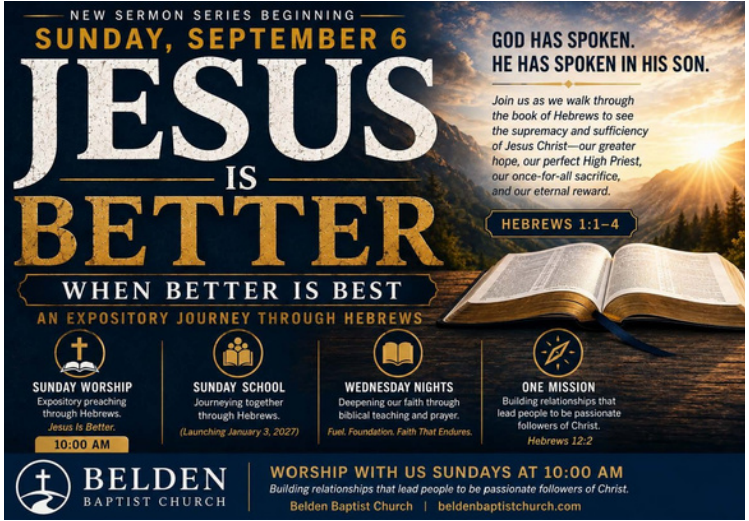

On Sunday, September 6, we will begin a new sermon series through this powerful New Testament book. Hebrews was originally written to believers who were tired, discouraged, and tempted to turn back. Following Christ had become difficult, and some were beginning to wonder whether remaining faithful was worth the cost. The writer’s answer was simple: Look to Jesus.

Hebrews lifts our eyes to the greatness and sufficiency of Christ. He is greater than the prophets and the angels. He is our perfect High Priest, who understands our weaknesses and invites us to approach the throne of grace with confidence. His sacrifice is completely sufficient, His covenant is eternally secure, and His promises will never fail.

That is a message we desperately need today. When life becomes difficult, our natural tendency is to become distracted, discouraged, or spiritually weary. We may not openly turn away from Christ, but we can slowly begin to drift. Hebrews warns us against that drift while continually calling us back to Jesus.

My prayer is that this series will do more than increase our biblical knowledge. I pray it will deepen our love for Jesus, strengthen our confidence in Him, and help us remain faithful no matter what we face. I hope you will make plans to join us each Sunday beginning September 6. Bring your Bible, invite someone to come with you, and come ready to hear from God’s Word.

When everything else competes for our attention and allegiance, Hebrews reminds us where to look. Jesus is greater. Jesus is sufficient. Jesus is faithful.

WHAT’S HAPPENING?
