

EDF POWER SOLUTIONS Presents AC/DC With Community Support Award

Active Communities of Desert Center would like to express our sincere appreciation to EDF Power Solutions for continued support of the Lake Tamarisk Community and the Desert Center Area.

Through a spirit of cooperation and partnership, EDF has helped fund important improvements that directly benefit local residents and community facilities. Their latest contribution will assist with additional equipment and upgrades for the Community Hall and kitchen, helping to strengthen one of the most important gathering places in our community.

We are grateful not only for EDF's financial support, but also for their willingness to work collaboratively with the community to identify meaningful projects that improve quality of life for residents. These partnerships demonstrate how industry and community can work together to create positive and lasting benefits.

On behalf of AC/DC, and the residents of Lake Tamarisk and the Desert Center Area,

**Thank you EDF Power Solutions
For your continued commitment to our Community.**
