

# DISSACOLL "C"

**CANOLA BASED CONCENTRATED RELEASE  
AGENT FOR CONCRETE PRECAST.**

## **APPLICATION:**

Canola oil emulsion concentrated mold release agent for precast concrete.

## **PROPERTIES:**

Excellent mold releasing properties.  
Low viscosity, so that, easy to use.  
Cost effective, low running cost.  
Smooth finish.  
Stable.  
Antifreeze.

## **DILUTION RATES:**

Use 1part of DISSACOLL "C" plus 2 parts of water.

## **HOW TO USE:**

Application is recommended systems weed sprayer. Alternatively, air gun system, sponge or brush can be used.  
Mold used for the first time should be cleaned properly and spray on twice (allowing dry out in between) before first pour.  
Spray evenly.

## **CAUTION:**

Stir before use.  
Protect the emulsion from cold and heat.

## **PROPERTIESPHYSICAL:**

Density (20 ° C) 0.80 to 0.82 g / c.c. DIN 51757  
Color: Opaque mobile liquid.  
Solid%: 51-53% P/P
