Notes on TWC from CD liner notes (abridged)
for more information visit: jamesdemars.net

On March 4, 1993, the *Two World Concerto*, commissioned by the Heard Museum, was premiered by the Phoenix Symphony under the direction of James Sedares in a series of soldout performances. Later that month the work ws again performed by the Phoenix Symphony in Los Angeles. Los Angeles Times reviewer Timothy Mangan wrote,

"...a powerful first impression...canny, vital, adventurous and exotic music."

The *Two World Concerto* was later performed by the California, San Juan, Anchorage and Tucson Symphonies.

James DeMars' first experience with working with Native American materials came in 1986 when he was commissioned by Canyon Records to compose the first concerto for Native American flute and chamber orchestra. This and other collaborations by DeMars and Nakai are available through Canyon Records (Spirit Horses CR-7014 and Native Tapestry CR-7015)

The titles of the three movements of the *Two World Concerto* combine Native American images with phrases by the French poet Michel Sarda. The opening movement (*Spirit Call*: "paint for us the times to come"), is, as the composer states, " a spiritual journey exploring the visions of the ancients through the dialogue of the Native American flute melodies and counter melodies based on Europeana and Arabic traditions."

This three section movement opens with a glittering chord in the orchestra that dissolves into a statement of Nakai's "*Shaman's Call*". The orchestra returns with an accompaniment that gradually changes into a statement based upon Arabic scales. Musical ideas are exchanged until the flute brings the first section to a close with a short, sudden slowdown.

The second section begins with solos in the oboe, clarinet and bassoon which are drawn from the second phrase of "*Shaman's Call*." The native flute answers with similar material accompanied by high dissonant chords in the strings. This section comes to a close when the trumpet completes the orchestral climax with a reintroduction opf an Arabic motif.

The third section of the first movement uses a descending gesture based on a traditional flute cadence. The Native American flute follows with a solo extension of the first phrase of "*Shaman's Call*" leading to an orchestral fugue based on the Arabic ideas of the first section. The orchestra repeats the opening chord of the movement in a scales rising to the seventh degree which is completed by the flute sustaining over a long orchestral descent and leading to a traditional flute closing foreshadowed throughout the third section.

The middle movement, *Lake that Speaks*: "*this trembling of beings and things*" is the most impressionistic of the three movements. DeMars wanted to bring the forest and waters of his home in Minnesota to life in an environment of woodwinds, string harmonics, percussion sonorities and fluid flute lines. The movement opens with a flute cadenza in which DeMars moves away from the usual pentatonic scales of the flute to more chromatic ideas, fragments of which return throughout the movement. These melodic ideas are presented against a shimmering background of orchestral colors especially in the percussion use of bowed vibraphone, crotale (tiny cymbals), rainstick, marktree and prayer stones (two stones tapped against each other).

The last movement, *Crow Smoke*: "*shaping worlds as fire burns*" is introduced with a raucous flutter tongue gesture in the flute drawn from the first notes of *Shaman's Call*. The flute and orchestra each take four turns in presenting ideas with the fluteworking against a background of shifting accompaniment. In the final statement of the orchestra, the climax of *Spirit Call* returns followed by a flute cadenza reminiscent of *Lake that Speaks* and a rousing final statement with the flute soaring above the massed orchestra.

Notes for: Two World Concerto, Far From the Water and Native Drumming:

The *Spirit Call* is actually a spiritual journey exploring the visions of the ancients through a dialogue of the Native Flute melodies and the western and arabic counter melodies. Although a variety of materials are provided, there are essentially three parts to this movement: the exposition of materials in part one are contrasted with slow mystical solos arriving at a central climactic statement in part two. The third part is a spinning out of ideas from this climax which culminates in a contrapuntal treatment of themes from part one and is followed by a brief coda.

In *Lake That Speaks* the orchestra brings the forest and water to life in an environment of string harmonics and percussion (bowed vibraphone, crotales, rain stick, mark tree, prayer stones). These elements provide the opening and closing sections of the work and surround a central ostinato featuring the low strings and solo woodwinds.

In *Crow Smoke* the flute is challenged to survive the weird, angular world of the orchestra. After the orchestra appears to be driven to its death the flute rises again for a final cadenza and remembrance of the *Spirit Call*.

Far From the Water is a through composed work recalling my days on Lake Blanche, the birds over the water, the fresh air and colors, and the desire for each day to last forever.

After listening to the *Flag Song* I interpreted the melody in 6/8 and organized the orchestra accordingly. Rather than imitate the song itself, I chose to create changing backgrounds for the three cycles of the song. These dense contrapuntal fabrics are based on two motives presented in the introduction. The primary orchestral "motto" is stated in an ascending canon in the strings and is immediately answered by the secondary "double stroke" motive of the brass. Each cycle of the flag song is actually a group of two verses in which soloist presents the first phrase (the "push-up") with the rest of the singers joining to complete and repeat the song in unison. The orchestra accompanies the first cycle with a slowly descending canon in the strings and the second cycle with a texture of solo woodwinds, violin and cello. An interlude follows with a brass canon rising to a climax in which both motives and the *Flag Song* are united. The movement closes with a duet for horns in a somber remembrance of the "motto".

Destiny Song is also based on a traditional song form with the solo "push-up" answered by the "start-up" and verse sung by everyone. However, in this case the ensemble repeats only the verse which is defined by the powerful "honor beats" evoking the ancestors. The orchestra begins with introverted glissandi and harmonic clusters surrounding exchanges between orchestral percussion and the native drum.

As in the *Flag Song* changing backgrounds provide the shifting visions associated with the spiritual journey of the drum ceremony. The drummers are challenged by conflicting meters and rhythms from the orchestra throughout part one of the *Destiny Song* and arrive at a mystical plateau for the presentation of the Sacred Mask Dance, a solo sung by Elgin Scabby Robe. When the aggressive forces of the *Destiny Song* return the native drum prevails, drawing the positive orchestral motives together and achieving a resolution.

Two World Concerto

With gratitude to
R. Carlos Nakai
and
Russell Allen

Spirit Call: "paint for us the times to come..."

Cb. *marcato*

The musical score page shows a complex arrangement of instruments. The top half features woodwind and brass sections playing eighth-note patterns, with dynamics ranging from *f* to *ff*. The bassoon section has a prominent role with sustained notes and eighth-note patterns. The middle section includes timpani and three percussion parts. The bottom section features strings (violin, viola, cello, double bass) playing eighth-note patterns, with dynamic markings like *ff* and *marcato*. The overall style is energetic and rhythmic.

The musical score page 81 contains 18 staves. The top 14 staves are mostly silent, with a few short dashes indicating sustained notes. The bottom 4 staves show more activity. The woodwind section (Fifes, Flute, Oboe, Clarinet, Bassoon) has no notes. The brass section (Horn, Trombone, Tuba, Timpani, Percussion 1, Percussion 2, Percussion 3) also has very little activity. The strings (Violin 1, Violin 2, Violin 3, Violin 4, Viola 1, Viola 2, Cello, Double Bass) provide the primary sound. Violin 1, 2, 3, and 4 play eighth-note patterns at dynamic *p* (pianissimo). Violas 1 and 2 play eighth-note patterns at dynamic *p*. The Cello and Double Bass play sustained notes at dynamic *p*.
