

Preparation for Interior Ant Pest Service

Thank you for choosing Overkill Pest Control for your ant pest control needs. To ensure the effectiveness of the treatment and the safety of your home, please follow these instructions carefully:

Pre-Treatment Preparation:

1. **Cleanliness:** Thoroughly clean and declutter your home, paying special attention to areas where ants are commonly found, such as kitchens, bathrooms, and entryways.
2. **Food Storage:** Store all food, dishes, utensils, and pet food in sealed containers or cabinets. Remove any open food sources that could attract ants.
3. **Access:** Ensure that our technicians have unobstructed access to all areas of your home where treatment is needed, including behind appliances, under sinks, and inside cabinets.
4. **Children and Pets:** Make arrangements for children and pets to be out of the house during the treatment and for a few hours afterward to allow the treatment to dry completely.

During Treatment:

1. **Vacate Premises:** Vacate the premises and remain outside for the duration of the treatment plus two hours to minimize exposure to treatment chemicals.

Post-Treatment Instructions:

1. **Ventilation:** After the treatment is complete, ventilate your home by opening windows and doors to allow fresh air to circulate. This helps to dissipate any residual odor from the treatment.
2. **Avoid Cleaning:** Refrain from cleaning treated areas for at least 24 hours after the treatment to allow the products to work effectively. This includes sweeping, mopping, or wiping down surfaces.
3. **Refrain from Contact:** Avoid touching treated surfaces or allowing pets and children to come into contact with treated areas until they have dried completely.
4. **Follow-up Inspection:** Our technicians may schedule a follow-up inspection to assess the effectiveness of the treatment and address any lingering issues. Please cooperate with these inspections to ensure the best possible outcome.
5. **Report Any Concerns:** If you notice any signs of continued ant activity or have any concerns about the treatment, please contact us immediately. We're here to help and will address any issues promptly.

By following these instructions, you can help ensure the success of your ant treatment and maintain a pest-free home environment. Thank you for choosing Overkill Pest Control.
