A Workshop for Students of
CSI WESLEY INSTITUTE OF TECHNOLOGY AND SCIENCES

BIRDHOUSE WORKSHOP - DESIGN AND BUILD

As Architects, when we build homes we harm the environment and the ecosystem it sustains, its our responsibility to restore it too. Birds are important part of our ecosystem. Lets be sensitive of our environment and create a house for them.

Day 1: Prototype Blitz

Introduction : Present your team's concept to the group and receive feedback for refinement.

Prototype Model : Put your ideas into action! Build a rough model of your birdhouse using wood as a material.

Day 2: Final Flight

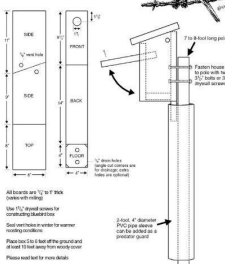

Presentation : Polish your presentation, highlighting your birdhouse's sustainable features and how it attracts specific birds.

Final Construction : Time to build! Assemble your final birdhouse using safe construction techniques.

Display : Showcase your finished creation alongside other teams' birdhouses. Share learnings and celebrate your creations!

A Concept Reference for Design

Bluebird (मौलकंत)

21st and 22nd June | 10.30 am - 1.30 pm

Come up with a Design Concept and Don't forget to share it with us on the Whatsapp group !
