To Whom It May Concern:

This letter is in support of the efforts and dedication of Melissa Powelson and Jodi Grover in their efforts to strengthen rural communities, families, and schools.

I was personally approached in 2018 by Vibe Interactives, two women-led founders, requesting financial and project assistance with the design and development of predictive technology tools, utilized for social emotional learning and mental health within educational systems K-12. Our firm, Domenari Capital, has gladly invested over \$850k in capital along with providing experience and resources for the development of their innovative data ecosystem.

We plan to continue our support for VIBE and its founders by providing leadership, financial guidance, resources, fund-raising expertise, strategic partnerships opportunities and support as needed.

Domenari Capital is a source for international investments, mergers, acquisitions, finance, and private equity funding. You can learn more about us at www.domenari.com.

If you have any questions or would like further information, please feel free to contact me directly at 1.913.915.7709 or niko.isaacs@domenari.com.

Thank you,

T.E. Niko Isaacs
