Harness the Power of the Most Complete Healthcare Insights

With unique access to near-census inpatient and outpatient treatment insights and the largest independent source of integrated U.S. health plan claims, we're powering a new level of healthcare analytics. So you can optimize quality and cost outcomes like never before.

- Leverage real-world information on more than 260 million anonymous patients
- Understand population health dynamics at the patient, plan and provider levels
- Measure, benchmark and improve operations
- Pay based on value and performance
- Integrate and coordinate care

Working Together to Make Healthcare Run More Intelligently

Why IMS?

- Comprehensive, longitudinal population healthcare data
- Recognized expertise in data security & privacy management
- Sophisticated, predictive analytics
- Global scale, deep local knowledge
- Action-oriented, scalable technology
