

# KIN

## The most interactive touch screen panel

KIN is the most interactive video door entry panel. It allows the visitor to interact in a simple way with its user interface. It has a 10" **capacitive touch screen** and a graphite grey **finish** at the forefront of design, in addition to having **hidden screws** and a **hidden speaker**, with side grille.

This innovative outdoor panel provides **high quality audio and video**, as well as multiple options such as **alphanumeric calls** or calls to several guard units and **advanced security features**.

### Electronic Directory

Home selection is easy: simply access the electronic directory to quickly search for the apartment you want to call. Navigating through user names is practical and accurate, making it possible to find the resident by choosing the first letter of the alphabet or just browsing the directory up and down.

### Touch screen

Its user interface is dynamically adapted to the user's needs, guiding the visitor through the process and creating a pleasant user experience. All this thanks to the capacitive touch screen of the KIN panel, which incorporates a high resolution display (1024x600).

### 1.2Mpx Colour HD Camera

The camera has a high-definition image, providing excellent video quality. The camera is equipped with LED lighting for low light conditions. It is possible to send video stream directly from the panel to an IP CCTV security NVR using RTSP stream.

### Alphanumeric call

Thanks to its display it is possible to call through alphanumeric codes from A to H, such as 7B or 121F.

### Proximity Reader

In addition to offering great security features with the MIFARE proximity reader, the KIN panel supports integration of third-party readers such as HID.

### PIN Code

It is possible to access the building through the keypad, using PIN codes, which facilitates the access without carrying any type of identifier.

### Face Recognition

Now it is possible to open the door using the KIN face recognition system, allowing residents to access the condominium building quickly, and providing greater security and comfort to the system.
