SECURITY AT HOME

ALUMINIUM

MODULAR

COMBINE DIFFERENT MODULES WITH INFINITE POSSIBILITIES

A modular panel that allows total freedom to configure any composition of components required to meet system specification. Panels made of anodised aluminium with high outdoor resistance.

SKYLINE Panel

Modular panel.

Made in anodised aluminium (IP43 IK07).

Chromed zamak push buttons and reinforcements.

Wide angle colour camera (Vertical=80°, Horizontal=100°).

Illumination for vision in low-light conditions.

3.5" graphic display on digital panels:

- Display activation by presence sensors.
- Electronic directory agenda of residents.
- Menu-driven configuration from the keypad.
- Information pictograms (One-To-One) with the communication status (calling, in communication, door open, channel busy).
- Upload images, logos and personalised messages.
- Alphanumeric call to apartment.

Keypad:

- The metallic keys are made of zamak. It has permanent backlighting.
- Through the keypad it is possible to activate the installation's electric lock with a previously programmed PIN. 10,000 different users/codes in DUOX PLUS system.

SKYLINE consists of 9 different-sized frames where different modules can easily be fitted. Modules come in 2 sizes, designated V and W. W is twice the size of V.

ACCESSIBILITY

Voice synthesiser with the "The door is open" message in 32 languages.

Integrated One-To-One. Visual information of the communication status (calling, in communication, door open, channel busy). In the One-to-One module with inductive loop, the induction system included in this module allows to transform the audio signal into a magnetic field adapted to the hearing aids or prostheses of hearing impaired persons.

Numeric keypad backlighted in blue, with marking for blind people on the keys **5** and **Ⓜ**.
