## Chairman's Message to Members of San Diego Section of ASNT

Dear Members,

*"Coming together is a beginning; keeping together is progress; working together is success". Henry Ford*

Having the opportunity to be elected as the Chair-person for San Diego Section this year is an honor.

I consider myself lucky to be part of a such a diverse group of individuals that have a common goal.

*"Mission Statement: ASNT exists to create a safer world by advancing scientific, engineering, and technical knowledge in the field of nondestructive testing.™"*

The San Diego Section Board of Directors would like to hear from you, our members.

What are some of the NDT challenges that are you experiencing at your workplace?

How can the San Diego Section help you succeed with your career, more training, different topics at technical meetings that interest you?

Together the San Diego Section can meet many challenges, if we come together and network. We have some great mentors to help you face challenges, remember they have faced these issues before. I encourage you to come to a technical meeting. ***The San Diego Section would really like to hear from you.***

Confidence for the future is built by participation of all our members and together we can build a world class team.

Kind Regards,

***Denise McKay*** –Chairperson

*San Diego Section of The American Society for Nondestructive Testing*

## SECTION MEETINGS

Meetings are held on the First Tuesday of each Month  
(except: **(Dark)** January, July & August 2018)

Location:

**Best Western Seven Sea's  
411 Hotel Circle South San Diego, CA 92108**

- **June (TBA) :** **Denise McKay**, Change of Gavel

## **ASNT Mission Statement:**

*ASNT exists to create a safer world by promoting, the profession and technologies of nondestructive testing.*

# Past Chairman's Message

Dear Members,

Looking back at an eventful year 2016-2017, I first and foremost want to thank the members of the Board of Directors whose unstinting support and dedication helped make it a successful year. The depth of their experience and strength of commitment to the Section more than made up for my relative lack of experience as a first-timer to the Chairman's position. I also thank all Section members for their support.

We held our first vendors' night in many years. It attracted a large number of vendors and, according to the general consensus, was a success for the Section members and the vendors. The award nominations for four Section members, a record, were accepted and will be granted at this year's Annual Conference. Once again the Section achieved the President's Gold Award. As a sign of the Section's support of the STEM initiative, a member actively participated in the STEM event at the 2016 Annual Conference as a speaker and guide.

I conclude with my best wishes for future success for the Section.

Best Regards,

Aurapong (Jerry) McAnulty - Past Chairman  
San Diego Section of The American Society for  
Nondestructive Testing

## Past Chairman of San Diego Section The American Society for Nondestructive Testing Inc.

## Magnetic Particle Inspection Instruments

PL- Case Super Tuff plastic carrying case for Contour Probes and accessories. Kit items are also available with dry powder, wet fluorescent inspection mediums, and black light.

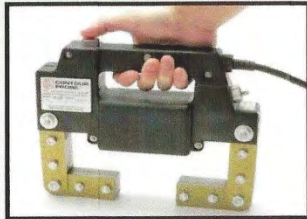

DA400 - A.C./D.C. Contour Probe Available in various kit forms. May be ordered with the Y400 Yoke Light at extra cost.

B310 - Shown with "A" kit items. Kit items are available with dry powder and wet fluorescent inspection mediums. Including black light and steel carrying case.

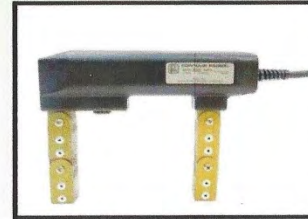

BAC310 - Portable, stand alone battery Inverter 115VAC power supply. Operate A.C. Yokes where normal power sources are unavailable. Contour Probe sold separately.

DA200 - A.C./D.C. Contour Probe Model A210 available for A.C. only operation.

B100 - A.C. Contour Probe. Our most economical. May be ordered with the Y400 Yoke Light at extra cost.

B300 - A.C. Contour Probe. May be ordered with the Y300 Yoke Light at extra cost.

PL8 & PL10 - Magnetizing Coils. 8" & 10" I.D. Complete with Carrying Case.

DA750 & DA1500 - Portable Mag units. Heavy duty 750 or 1500 AMP. Available with all accessories.

## NDT Using AIRSCAN®

In 1995, we developed the unique air-coupled ultrasonic inspection technique AIRSCAN®, which eliminates contamination of sensitive materials during testing.

AIRSCAN® is intended for use with engineered materials such as laminated and core materials, aluminum laminates, bonded assemblies and honeycomb core structures.

### ULTRASONIC TESTING

Air-Coupled using Airscan®, Water-Immersion, Water-Squirt, Bond Testing and Manual Contact Techniques.

### EDDY CURRENT TESTING

Eddy Current inspection is an electromagnetic technique used for conductive materials to detect surface and near surface defects. This inspection method is sensitive to small cracks and other flaws.

### SYSTEMS MANUFACTURING

Design and Fabrication of Ultrasonic and Eddy Current Automated Inspection Systems and Equipment.

### QUALIFIED PERSONNEL

Inspection Personnel qualified and certified to NAS410, Boeing B557698 and ASNT SNT-TC-1A.

### QUALITY APPROVALS

Approved by Major Prime Aerospace and Aircraft Manufacturers.
