## Chairman's Message to Members of San Diego Section of ASNT

Chairman's Message for the Year 2016-17

Greetings Fellow ASNT-San Diego Section Members

Accepting the challenge of being a new Chair for San Diego ASNT Section is an awesome privilege and honor. I have seen the bar raised higher for each consecutive Chair over the past few years. I am proud to have been a part of this evolution and progressive improvement in our ASNT Section. I am always looking for an improvement, however, I also believe that "if it not broke, don't fix it".

So I will concentrate on increasing membership because membership is the life blood of our organization as with any organization. We will be doing all of the same things that has made San Diego ASNT Section a Gold award section for the past few years. But we will do more ASNT section marketing and provide more exposure of NDT careers to the public than before. The other major addition to our agenda is to find new qualified and deserving members to nominate for awards and honors.

Best Regards,

Aurapong McAnulty-Chairman

San Diego Section for

The American Society for Nondestructive Testing

## SECTION MEETINGS

Meetings are held on the First Tuesday of each Month  
(except: **(Dark)** January, July & August 2017)

Location:

**Best Western Seven Sea's  
411 Hotel Circle South San Diego, CA 92108**

Meeting Agenda is:

**5:00 - 6:15 pm Social Hr.**

**6:15 - 7:00 pm Dinner**

**7:00 - 8:00 pm Program**

**Board meetings are held 4:30 - 5:10 pm (prior to the  
general meeting)**

**Everyone is invited.**

- ❖ **February 7, 2017: Past Chairman’s Night; (TBA)**
- ❖ **March 7, 2017: Vendor’s Night**
- ❖ **March 13 – 16, 2017: ASNT 26<sup>th</sup> Research Symposium 2017**. Jacksonville, Florida
- ❖ **April 4, 2016: Dr. Arnold “Army” Bereson**, Executive Director ASNT
- ❖ **May 3, 2016: “Annual Science Fair Awards”** (NDT-related projects).
- ❖ **June (Date TBA) : Aurapong “Jerry” McAnulty**, *Change of Gavel*
- ❖ **July 2016 (Dark) (No Meeting)**
- ❖ **August 2016 (Dark) (No Meeting)**

### **ASNT Mission Statement:**

ASNT exists to create a safer world by promoting, the profession and technologies of nondestructive testing.

# Past Chairman's Message

Dear Members,

Here are my departing comments for 2015-2016:

There is one thing I have learned over the past year as the ASNT San Diego Section Chair is that timeliness is the key to running a good organization. There is no place for procrastination because others are depending on you to do your part and you don't want to let them down. However, seasoned members (Old Pros) are always ready to pitch in and cover rookies in case they stumble.

I am grateful for the professionalism and camaraderie of our BOD members, for vendor support, especially for the heads of organizations that volunteered their facilities in order for us to hold training. We have had a banner year as well as the past 5 years. I am sure that this next year will supersede this past year.

Because as our new BOD members learn "the ropes", their enthusiasm perpetuates the desire to do a better job than before and with fresh and innovated ideas we will only have success.

Best Regards,  
John Morris – Past Chairman  
San Diego Section of The American Society for  
Nondestructive Testing

## Past Chairman of San Diego Section The American Society for Nondestructive Testing Inc.

San Diego Section Charter was issued February 1955

## Willick Engineering Becomes Premier Source for Ultra High Resolution Computed Radiography NDT Systems

- Willick Takes the Lead in North America for Sales and Service of DÜRR NDT Systems -

August 31, 2016 – Santa Fe Springs, CA – Willick Engineering Company, Inc. is pleased to announce that the company has partnered with DÜRR NDT to be the premier source for sales and service of DÜRR NDT's next generation computed radiography (CR) systems in North America.

Featuring innovative TreFoc Technology and ultra-high resolution imaging plates (IP), Durr NDT's 12.5micron, HD-CR35-NDT lightweight, portable systems and HD-CR-43-NDT automatic loading systems achieve unprecedented basic spatial resolution of 30  $\mu\text{m}$  with the speed and overall capabilities to meet even the most demanding testing requirements, including intricate components in the aerospace sector, automotive castings, industrial pipelines for such issues as corrosion measurement and weld seam inspections as well as a wide range of other non-destructive testing (NDT) applications.

"At Willick Engineering, we believe quality speaks for itself. As more and more NDT companies are transitioning to digital technology to replace conventional x-ray films, we wanted to represent a CR manufacturer that delivers cutting-edge solutions with field-proven performance, and to complement that with the top-notch expertise and service that Willick is well-known for", explained Mr. Dan Guerrero, CEO at Willick Engineering. "We looking forward to working with clients throughout North America to help them gain the exceptional advantages this technology provides."

### About Computed Radiography (CR)

Eliminating the need for film, processor and chemicals, Computed Radiography (CR) offers major advantages for operational efficiency and cost-savings including: faster exposure times, increased productivity, digital format archiving, media that is reusable thousands of times, excellent resolution and dynamic range, improved software analytical tools, visual aids without altering an image, portability and lower energy requirements.

## NDT Using AIRSCAN®

In 1995, we developed the unique air-coupled ultrasonic inspection technique AIRSCAN®, which eliminates contamination of sensitive materials during testing.

AIRSCAN® is intended for use with engineered materials such as laminated and core materials, aluminum laminates, bonded assemblies and honeycomb core structures.

### ULTRASONIC TESTING

Air-Coupled using Airscan®, Water-Immersion, Water-Squirt, Bond Testing and Manual Contact Techniques.

### EDDY CURRENT TESTING

Eddy Current inspection is an electromagnetic technique used for conductive materials to detect surface and near surface defects. This inspection method is sensitive to small cracks and other flaws.

### SYSTEMS MANUFACTURING

Design and Fabrication of Ultrasonic and Eddy Current Automated Inspection Systems and Equipment.

### QUALIFIED PERSONNEL

Inspection Personnel qualified and certified to NAS410, Boeing B557698 and ASNT SNT-TC-1A.

### QUALITY APPROVALS

Approved by Major Prime Aerospace and Aircraft Manufacturers.

 Did you learn about ASNT through a member?  Yes  No  
 If "Yes", member's name: \_\_\_\_\_ Member's # (if known) \_\_\_\_\_  
 Former Member (more than 6 months lapse in membership):  
 Yes, Member # \_\_\_\_\_  No  
 Local Section (Chapter) Choice \_\_\_\_\_  
 Choices posted online at [www.asnt.org](http://www.asnt.org)

## Membership Profile

1. Year of Birth \_\_\_\_\_  
 2. Gender  Male  Female  
 3. Highest Educational Level  
 Grades 1-12  
 High School Diploma  
 Some College  
 2-Year Associate Degree  
 4-Year Undergraduate Degree  
 Master's Degree  
 Doctorate Degree  
 4. Years of Experience in NDT  
 0-5  6-10  11-15  16-20  21 & over  
 5. Number of people involved with NDT at your company  
 1-5  6-20  21-50  51-100  Over 100  
 6. Your Job Function—Choose the one which best describes your role. (select only one)  
 NDT Management  Sales/Marketing  
 Quality Management  Researcher  
 Engineer  Academic/Educator  
 Technician/Inspector  Trainer/Instructor  
 Consultant  Student  
 7. Purchasing Responsibility (select all that apply)  
 I recommend/approve purchase of equipment/instruments/supplies  
 I recommend/approve purchase of training & study materials/programs  
 I recommend purchase of services  
 I am not involved in purchasing  
 8. With which NDT method(s) do you work? (select all that apply)  
 Acoustic Emission  Liquid Penetrant  
 Alternating Current  Magnetic Flux Leakage  
 Field Measurement  Magnetic Particle  
 Electromagnetic/Eddy Current  Neutron Radiography  
 Ground Penetrating Radar  Radiography  
 Infrared & Thermal  Ultrasonics  
 Laser  Vibration Analysis  
 Leak  Visual

## Membership Profile continued

9. Choose the one business industry segment that best describes your company. (select only one)  
 NDT Utilization Business  
 Aerospace/Aviation/Aircraft  Medical  
 Amusement Rides & Skiing  Nuclear  
 Automotive  Optical  
 Chemical & Petroleum  Ordnance  
 Construction  Pipeline  
 Commercial Labs  Pulp/Paper  
 Infrastructure (Roads & Bridges)  Railroad  
 Electronics  Semi Conductor  
 Marine  Utilities  
 NDT Supplier Business  
 Consulting  Robotics  
 Distributor/Manufacturers' Representative  Supplies  
 Equipment  Training  
 Research  Computer Software  
 Computer Hardware  
 10. Choose the primary type of application of NDT that you do? (select only one)  
 Design and Failure Analysis  
 Field Inspection  
 Incoming Inspection  
 In-service, Plant/Operation Maintenance & Process Control  
 Product Life Extension  
 QA/QC Reliability  
 None of the above  
 11. Highest Level of NDT qualification. (select only one)  
 None  ASNT NDT Level III  
 Level I  ACCP Level II  
 Level II  ACCP Level III  
 Level III  IRBSP  
 Other \_\_\_\_\_

## Membership Options

One-Year \_\_\_\_\_  
 Two-Year \_\_\_\_\_  
 Three-Year \_\_\_\_\_  
 Five-Year \_\_\_\_\_  
 Student, One-Year Must submit transcript or letter of enrollment \_\_\_\_\_  
 Military Rank E5 or lower \_\_\_\_\_

Dues  
 \$75  
 \$135
