

## **DISCHARGE MEDICATION REVIEW SERVICE CONSENT FORM**

Nanty Pharmacy is pleased to offer the Discharge Medication Review Service on behalf of NHS Wales. After a stay in hospital, an up-to-date record of your medication can be sent electronically to your pharmacy and GP. This will enable your pharmacy team to ensure that the first prescription issued by your GP after you've come home is exactly as the hospital intended.

We will then keep in touch over the next month to make sure that you are getting on well with any changes to your medication, and answer any queries that you may have.

If you are happy for us to access your Discharge Advice Letter in the event that you require a hospital stay, please sign below.

**I consent to Nanty Pharmacy receiving electronic communication regarding my medicines for any future stay in hospital.**
