CAPABILITY STATEMENT

COMPANY OVERVIEW

613 Logistics & Management is a Women-Owned Small Business specializing in consulting services for the government and private sector, with expertise in healthcare, IT, and transformative training. We connect top-tier professionals with organizations in Healthcare IT, EdTech, FinTech, and Cybersecurity, ensuring the perfect match for both talent and employers. Beyond staffing, we design customized training programs, from EHR adoption to compliance, cybersecurity, and upskilling, turning complex concepts into actionable skills. Our consulting services also include project management, change management, government contract support, clinical data abstraction, and revenue cycle optimization, helping clients streamline operations and achieve measurable results. Committed to excellence, we deliver strategic solutions that drive growth and efficiency.

CORE COMPETENCIES

- ✓ EdTech Solutions
- ✓ Help Desk Services
- ✓ Clinical Data Abstraction
- ✓ Cybersecurity Training & Strategy
- ✓ FinTech Learning & Digital Transformation
- ✓ Instructional Design & Training Development
- ✓ EHR Optimization
- ✓ IT Staffing
- ✓ Project Management
- ✓ Change Management
- ✓ Healthcare IT
- ✓ Technical Dress Rehearsal

PAST PERFORMANCES

613 Logistics and Management specializes in delivering targeted instructional design and training solutions that produce measurable outcomes across diverse sectors. Our team crafts customized learning programs using proven ADDIE and Kirkpatrick methodologies to maximize knowledge retention and performance gains. In the HealthTech sector, we implement effective EHR training programs for Epic and Cerner (Oracle) systems through role-based curricula that enhance clinical workflows. For FinTech and EdTech clients, we develop compliance training and engaging onboarding solutions. Our GovTech offerings include secure system training and IT modernization support, while our Cybersecurity programs feature interactive threat awareness modules. We also integrate AI-driven predictive analytics and personalized learning paths to optimize training effectiveness. Our proven track record demonstrates 40%+ improvements in end-user proficiency, scalable e-learning development using industry-standard tools, & successful execution of large-scale training initiatives across all sectors.
