

# Concerned about how smoking affects your property value?

*Are smokers creating higher cleaning and maintenance costs?*

*Want to save money on insurance?*

*Worried about the risk of fire damage?*

*Concerned about the risk of lawsuits/litigation based on human rights, health or accommodation issues?*

*Want to protect your investment and property market value?*

## You're not alone:

A smoke-free building is one of the easiest ways to protect your investment, reduce fire risk and cleaning costs, and reduce tenant complaints. Over **85%** of British Columbians don't smoke and would prefer to live in a smoke-free building.

## You can do something about it:

Download the petition at [bit.ly/2R8634n](https://bit.ly/2R8634n), sign it, share it, and send it to us

Share your experiences with us by **email** at [theairweshare@mail.com](mailto:theairweshare@mail.com)
