# Fight to Protect You and Your Loved Ones from Losing Your Hard Earned Assets to the Government, Attorneys, the IRS and In-Laws!

## Learn how a properly designed and maintained Living Trust estate plan may help:

- Protect your family from losing their inheritance to greedy in-laws, *divorce*, lawsuits, creditors and government claims!
- Assure that the person you've chosen to handle your affairs won't have to go to Court and face *unnecessary delays* and fees!
- Help protect your family from being *wiped out* by nursing care bills.
- Put your loved ones' inheritance to good use—like pursuing higher education, starting a career or business, or buying a house—rather than allowing them to *squander* it!
- Protect your valuable *IRAs* (and retirement plans) so they may later provide much-needed retirement income for your loved ones.
- Include a Service Package and "support mechanisms" that may be even more important than your plan documents.
- Can actually work, unlike "one-size-fits-all", bargain-priced internet, or "do-it-yourself" Trusts which can be a *disaster!*

## All Living Trust plans are not created equal! Find out why.
