<https://bendskiclub.net/>

Hello skiers and boarders!! As I write this, rumor has it there is a trace of new white stuff on the mountain! This is welcome news as April has had a drought of snow. Some of our members are still up at Bachy having fun though!

Some interesting statistics... thru March 31st there have been a total of 57 Meetups on the mountain. Many thanks to our 18 meetup leaders who make this happen! We had 175 people join the club this year which is awesome.

A couple of reminders. Regarding Covid, please remember to wear your masks in the lift line staging areas and on the lifts at all times. Also, please refrain from offering skiing/boarder lessons to fellow BSC members during meetups (it's a liability issue).

Regarding a year-end BSC party, the news isn't good. Deschutes County is currently at a "high" risk level and rumor has it we may be moving back to "extreme." Given circumstances, the BSC board decided against hosting a year-end party. Next year, we're hoping to host a full slate of social events!

FYI, the Far West Ski Association will be hosting a ski week January 29, 2022 – February 5, 2022 at Aspen/Snowmass. Lots of members are expressing interest in this trip! For details, visit our website at...

[TRIPS | Bend Ski Club](#)

FYI, starting Monday April 26 new hours at Bachy are 8:30am to 1:30pm and the Sunrise parking lot will be closed. Also, the Morning Conditions Report will not be out until 730am.

Hope to see you out there – remember you can ski in the morning and then go hiking, biking or paddling in the pm. What a life we have here in Central Oregon!
