January 10, 2021

Happy New Year to all of our members.....we are currently at 154 and growing!!

The Board is happy to announce that so far this season we have held 11 Meetups on the Mountain with a total of 78 participants. We want to thank all of our 15 meetup leaders who so generously have volunteered to spend their time leading our members around our snowy slopes at Mt. Bachy.

Our club rules this year due to Covid19 protocols allow us to only have 6 members per Meetup. We want to remind everyone that if you see a Meetup you would like to attend that appears FULL be sure and sign up for the waitlist. IF enough members are on the waitlist we will make every effort to double the size of the group (for example, from 6 to 12), find a second leader then split the group at the meetup site.

Also, we do ask that you not sign up for a Meetup until you either have parking for that day or an alternative way to get to the mountain. Thank you for your cooperation.

Remember, at 6pm every Monday more parking is released for the next 28 days. You need to be on your device or computer at that time as it has been mentioned that most open dates are gone in the first 10 minutes.

Let's hope the wind stops blowing and the snow keeps falling. Rumor has it that Colorado and Utah are a bit short on snow so far this year. We have to remember how lucky we are to have Bachelor in our backyard!!

See you on the mountain (if we can recognize you under all that gear)

Marlene Lomas and Joan Lapham
