

BEND SKI CLUB UPDATE: May 2024

**10% Discount on Equipment (non-sale items), Rentals,
Demos and Tuning Services**

10% Discount on Tuning and Repair Services

Hello Snow Enthusiasts!

The snow keeps coming! We've had some new powder over the weekend and cold temperatures expected for the next couple of weeks should make for some great skiing right to the end of the season.

There are still lots of Meetups happening every week for all levels of ability and skiing conditions. Thank you Meetup leaders for making this such a success!

For our final speaker of the season we heard from Bend Ski Club member Dr. Brad Grant “the ageless wonder.” Brad described his ascent of the highest mountain in Antarctica, Mt. Vinson. He shared some of the pitfalls and problems he encountered and how to prevent and treat them. Brad, as Dr. Adventure, has led expeditions all over the world. For a sampling of his expeditions, visit his website at: [Dr. Adventure – Step out of you comfort zone travels.](#)

The tailgate party on April 18 was once again one of the highlights of the year. Another beautiful sunny afternoon to follow a morning of great spring skiing. Bratwursts were provided by the club and everyone brought their own beverages and a side or dessert to share. A special thanks to Marlene Lomas and Mike Darling who hosted the

event. And a thank you to Mike, Don Work, John Stockham and Mark Darnell who brought grills and cooked!

The final event of the season is the year end party on May 14. We will again be in the Aspen Hall next to Tumalo Creek. We are excited to have catering through Longboard Louie's who specializes in "Healthy Mexican Food." This is a BYOB event and the cost is \$10. The event has been posted on Meetup.

The registration for the club is now closed for the season. Watch for an email in the fall announcing the start of registration for the 2024-2025 ski season.

Have a great summer!
