

# ULTRATITE RESTORATION COATINGS

## Roof Restoration

Ultratite's roof restoration products help prevent leaks and extend the life of the roof with an easy-to-apply, durable, and cost effective solution. Coating restorations are non-intrusive and typically result in minimal downtime to facilities operations. Coating restoration can extend the life of the roof for 10, 15, or even 20 years and can also be used to make repairs and prevent leaks.

### Features and Benefits:

- Extend roof's life
- Make repairs
- Monolithic and seamless
- Reflective energy

## Roof Coatings

**Versatile, sustainable, and valuable solutions for new and old roofs.**

Ultratite offers a full line of advanced acrylic, silicone, polyurethane, and polyurea roof coatings, along with all necessary accessories. Backed by superior manufacturing, quality sales, technical support, and customer service from project start to finish.
