

ENGINEERED SOLUTIONS FOR H₂S AND MERCAPTANS REMOVAL IN GAS STREAMS

TURNKEY SYSTEMS | CHEMISTRIES | CONSULTING | FIELD SUPPORT

SulfurSWEET team brings 60+ years of cumulative global experience, superior technical support and service to take on your H₂S and mercaptans challenges and deliver effective solutions with unique flexibility, responsiveness, and adaptability. We bring advanced chemistry solutions, systems, and innovation into the field of H₂S and mercaptans removal from gas streams.

TECHNICAL SERVICES

- Consulting
- Testing
- Onsite Troubleshooting
- Technical Training
- Systems Designs
- Start-up Support

CHEMICAL TECHNOLOGIES

- Liquid Chemistries
 - H₂S Removal
 - Mercaptans Removal
 - Amine based
 - Non-Amine based
- Solids Chemistries
 - H₂S Removal
 - Mercaptans Removal
 - Iron based
 - Non-Iron based & non-pyrophoric

TURNKEY SYSTEMS

- Bubble Towers
- Scrubbers
- Pipeline Injection System
- Custom Systems
- New and Repurposed Systems
- Replacement Vessels
