

What Makes

Different?

LetYourBusinessThrive.com

There are lots of networking groups and even a few groups dedicated to developing referral business, but here is what makes Thrive! so unique.

Culture

It's hard to describe culture, but whether it's good or bad, you often know it when you see it! Thrive! Business Communities focuses on creating a culture where like-minded professionals truly believe that if we can help each other grow our businesses, the returns will be ten-fold. This approach is unique and not for everyone, which is why all prospective members are interviewed and selected to ensure the best fit for the member and the group.

Industry Exclusivity

Allows each member of our community to serve as the expert in their field and be the referral go-to for their industry.

Size Matters

Our groups are designed to be relatively small and intimate so you won't get lost in a swirling mass of people simply exchanging business cards.

Growth & Development

We provide educational resources and workshops to help our members grow personally and professionally.

Not Just A Networking Group

Our groups host a number of social events throughout the year designed to help members get to know each other on a much more personal level in a relaxed and fun environment.

Charity

We recognize the value of giving back and support a variety of charitable organizations, throughout the year, in our local community.

Quality vs. Quantity

Our group leaders are not paid or incented to recruit members, unlike many referral groups whose chairs/leaders are paid to drive candidates to join. This is important, because it means our leaders are dedicated to finding quality members, as opposed to fulfilling a quota of new heads per month.
