

FORWARD TEES

The 9-hole league offers the option of teeing off from the forward (family) tees. This option is available to anyone who is at least 75 years old and has been a member of the Captains 9-hole league for at least one complete season (May 1st - October 31st). Exceptions to these requirements may be made on a case by case basis and must be approved by the President, a member of the Tournaments Committee and a member of the Pairings Committee.

This election reduces a member's handicap based on the difference between the slope and rating for the forward tees and the slope and rating of the red tees. Additionally, all scores resulting from using the forward tees are entered into the computer as FAMILY TEE SCORES; not as red tee scores.

Members playing from the Forward Tees are not eligible to participate in the Summer Cup or the League Championships and are not eligible to win the year end 'Most Improved Golfer'.

Members may elect to start this option at any point during the season. To do so, they need to send an email to cgc9holers@yahoo.com stating so. The Pairings group will then incorporate that information into the next available weekly tournament and will let the member know when it will be effective. Once a member has made this election, it will stand for the remainder of the season.
