

Lets Build with HousePro

1.Site Meeting

We meet on-site to understand your block, answer your questions, and identify any opportunities or constraints from day one.

2.Choose Your Design

Select from our range or create something completely custom. Whether it's a tweak or a full concept, we'll shape it to suit your lifestyle and block—backed by a clear preliminary price guide.

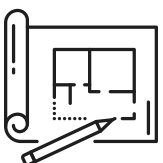

3.Approval to proceed

Once you're ready, we'll send your approval via DocuSign. We'll also need your ID, proof of land ownership, and finance pre-approval to move forward.

4.Preliminary Quote & Investigations

With your deposit secured, we get to work planning, soil testing, contour surveys, and engineering, setting the foundations for accuracy.

5.Plan Development

We guide you through the design process to maximise your block and bring your home to life—practical, functional, and considered.

6.Final Selections & Pricing

Colours, finishes, and upgrades are locked in. You'll receive your final fixed price with full clarity—no surprises.

7. Construction Begins

Once finance is approved, we break ground and your home starts becoming a reality

8.Through The Build

We stay accessible, accountable, and present. You'll know where things stand and you'll see us on-site.

9.Completion

In approximately 14-16 weeks of construction your new home is ready.

10.Handover

No middlemen. No handoffs. You deal directly with the owners - Brad & Clay - from start to finish.

Warranty You Can Trust

6-year structural warranty
12-month maintenance check to address any settling or minor defects.
