

REAR-LOADERS CONTAINERS

ELITE CONTAINERS

PROUDLY MANUFACTURING WASTE
HANDLING EQUIPMENT

211 BROOKSIDE RD WATERBURY, CT 06708

Call: 203-456-8811 or

Fax: 475-235-6149

Ideal for :

- Municipalities
- Restaurants
- Drug Stores
- Strip Malls
- Shopping Centers

Elite Containers' rear-load containers are engineered to perform in high-traffic, high-demand environments—from restaurants and retail centers to municipalities and commercial properties. These containers are built to handle repeated pickups, heavy loads, and tough conditions without sacrificing safety or reliability.

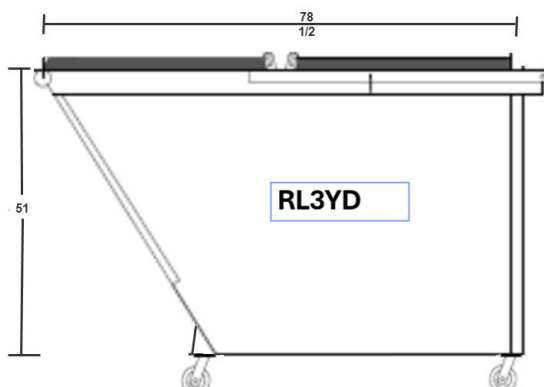

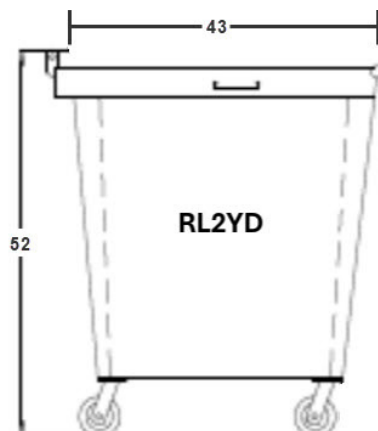

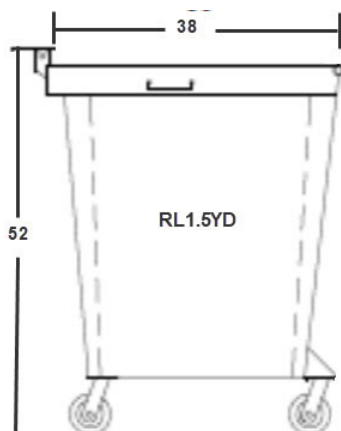

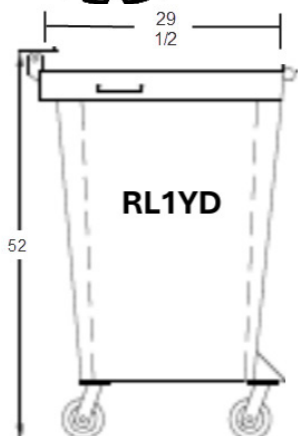

Each rear-load container is constructed using heavy-gauge steel, reinforced channel structures, and precision-formed components to ensure superior strength and long-term durability. Our containers are fully primed on the interior, exterior, and underside for enhanced corrosion resistance—extending service life and protecting your investment.

Whether you need compact footprints or high-capacity solutions, Elite Containers offers a full range of rear-load sizes and profiles to match your operational needs.

We put our best effort in every build.

REAR LOAD CONTAINER SPECIFICATIONS w/ Wheels

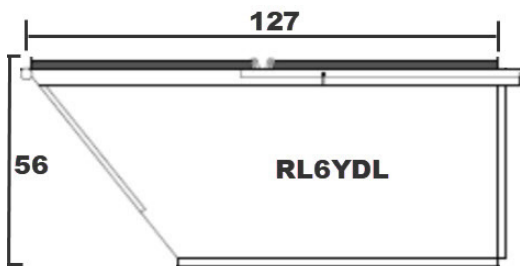

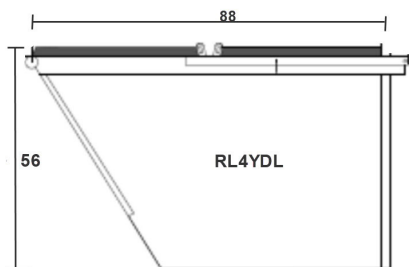

Capacity Cubic Yard	Height	Width	Length	With HOOK
1	52"	64 1/2"	29 1/2"	
1.5	52"	64 1/2"	38"	
2	52"	64 1/2"	43"	
3	51"	64 1/2"	78 1/2"	YES

All containers have: * 80" BAR, * 12 ga bottoms, front, rear and sides, * Back Channels 1.75" x 3" w/ 3-way bend formed ch. 7 ga Interlocked , *Side Channels 2" x 4" w/ 2-way bend 7 ga ch. interlocked

REAR LOAD CONTAINER SPECIFICATIONS - Low Profile

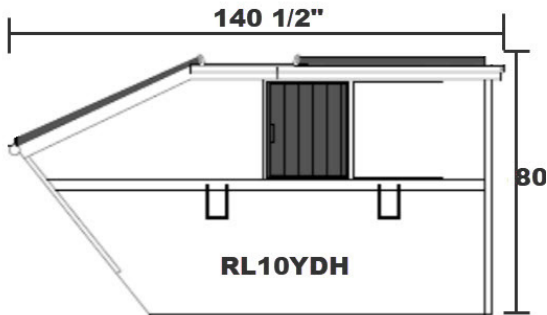

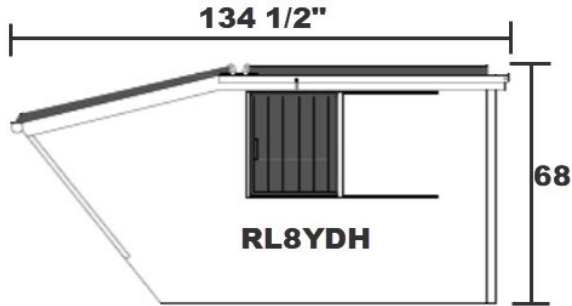

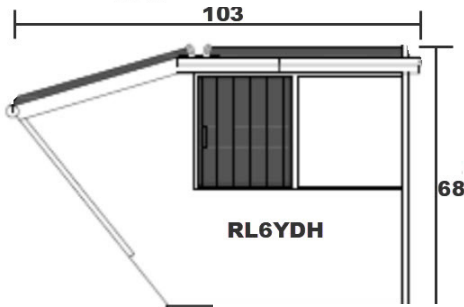

Capacity Cubic Yard	Height	Width	Length	With Hook	w/Door
4 Low	56"	64 1/2"	88"	YES	NO
6 Low	56"	64 1/2"	127"	YES	NO

All containers have: * 80" BAR, * 12 ga bottoms, front, rear and sides, * Back Channels 2" x 4" w/ 3-way bend formed ch. 7 ga interlocked (double) inside & Outside, *Side Channels 2" x 4" w/ 2-way bend 7 ga ch. interlocked

REAR LOAD CONTAINER SPECIFICATIONS - High w/ Doors

Capacity Cubic Yard	Height	Width	Length	With Hook	w/Door
6 High	68	64 1/2"	103"	YES	YES
8 High	68	64 1/2"	134 1/2"	YES	YES
10 High	80	64 1/2"	140 1/2"	YES	YES

All containers have: * 80" BAR, * 12 ga bottoms, front, rear and sides, * Back Channels 2" x 4" w/ 3-way bend formed ch. 7 ga interlocked (double) inside & Outside, *Side Channels 2" x 4" w/ 2-way bend 7 ga ch. interlocked

REAR LOAD CONTAINER SPECIFICATIONS

Rear Load Containers

Elite Containers' Rear Load Containers are built for efficient waste collection in tight spaces like city streets, alleys, and multi-unit properties. Constructed from heavy-gauge steel with reinforced trunnion bars, each unit is designed to handle dense, daily loads while maintaining leak resistance and structural integrity. Backed by our commitment to quality craftsmanship, every container delivers lasting performance and value.

FEATURES Built Strong. Designed Smarter. Backed by Experience.

At Elite Containers, we don't believe in cutting corners — we believe in building containers that outlast and outperform in the real world. Every Elite Rear Load Container is manufactured with:

- **Heavy Gauge Steel Construction:**

12-gauge floors, fronts, backs, and sides for maximum durability and long service life in high-use environments.

- **Reinforced Channel Design:**

All back channels use formed 7-gauge steel.

- **Strong Side Channels:**

Side channels made from 2" x 4" 7-gauge steel with 2-way bends, interlocked for added rigidity and structural integrity.

- **Double Reinforcement on Larger Sizes:**

High-profile 6YD, 8YD, and 10YD containers feature double interlocked back channels, inside and out, for superior resistance to bowing under heavy loads.

- **Low & High Profile Options:**

Available in multiple profiles to suit tight spaces, alleys, or large volume requirements — with optional side doors for easy loading.

- **Precision Formed & Fully Welded:**

Formed corners, heavy channel bracing, and continuous welds help prevent leaks and rust adding strength where it matters most.

- **Easy to Handle, Easy to Haul:**

Nestable tapered design saves yard space and reduces shipping costs, while robust lift pockets and trunnion bars make emptying smooth and secure.

- **Customization Available:**

Multiple sizes (1YD to 10YD) plus custom options like drain plugs, casters, lock bars, and custom paint to match your fleet.

- **Custom Built to Customer Specs:**

Each container is built to order allowing full customization of floor/wall thickness and trunnion bar length.
