

# EVE

**ENHANCED VIRTUAL EDUCATION  
@LAKETAHOECC**

LTCC offers traditional distance education (DE) courses that provide independent learning and flexibility. For students who wish to have a face-to-face educational experience but in the safest way possible during COVID-19, LTCC introduced Enhanced Virtual Education, or EVE. Like traditional DE, EVE classes are also offered online and use the Canvas LMS for information and resources, but they also use Zoom, as well as other technologies, to provide more real-time contact. This one-pager focuses on the ideas behind EVE and directs you to videos and resources that may be of value. Click on the description or image in the PDF to learn more about EVE and its different possibilities for your teaching.
