

Background for Teaching Talk #5: Cultural Trends & Teaching

Back in 2002, I created a document called “Fifty Popular Culture Trends as They Impact Work, Lifeworlds, Organizations and Education”

(https://www.academia.edu/5805241/50_Popular_Culture_Trends...and_Their_Impact_on_Education) I was interested in looking at how cultural trends impacted teaching and education. Since I wrote that list, I wanted to revisit the idea of looking at **how cultural trends impact our teaching/work**. I have scheduled a fifth Teaching Talk on the Topic. To get prepped:

1. Consider contributing a trend and its impact on the shared Google sheet:

2. Read some of the Sparks & Honey Intelligence Reports (a good one to read is “Trends 2019: Strangers in a Strange Land”)

3. Have a look at “Four Trends Influencing Education” (Forbes)

4. Attend Teaching Talk #5 (November 5, 2019), Room E100 (LTCC), Virtual participation at: [youtube.com/user/immersiveworlds/live](https://www.youtube.com/user/immersiveworlds/live)
