

# Video in DE and EVE Teaching

THIS ONE-PAGER PROVIDES AN OVERVIEW OF ALL USES OF VIDEO IN DE/EVE TEACHING.

Start

## CREATING A VIDEO

To get started, watch "Creating a Video" to get an overview of the training videos available to help you with your video needs. Next, watch "Video, the Basics."

Basics

## VIDEO, THE BASICS

To gain an understanding of all of the possibilities with video in your course, watch "Video, the Basics." Then, watch any of the four videos below.

## LIVESTREAMING/MULTI-CAM

See educational futures one-pager

Zoom

## ZOOM, THE BASICS

To learn how to record a live (synchronous) class session, watch, "Zoom, the Basics."

## ARCHIVE VIDEO

To learn how to play a pre-recorded video in your class, or how to archive videos that you create, watch "Archive Video."

Archive

Location

## LOCATION VIDEO

To get some ideas as to record your own videos for your classes, have a listen to "Location Video."

## CANVAS STUDIO OVERVIEW

To learn how to record an asynchronous video, such as a demonstration for your class, watch "Canvas Studio Overview."

Canvas Studio

CHOOSE ANY OF THE FIVE ADVANCED VIDEOS AS NEEDED

## MULTI-CAMERA OPTIONS

This video covers the idea of multi-camera setups for teaching (OBS)...coming soon

Multi-Cameras

Video Under 5

Create a Video in Under 5 Minutes!

YouTube

## YOUTUBE, THE BASICS

To consider whether your own YouTube channel might be right for you, check out, "YouTube, the Basics."

Advanced Video

## THE VALUE OF VIDEO

To learn about the more detailed and advanced aspects of video, look at, "The Value of Video"

Sound

## SOUND & AUDIO IN TEACHING

To get a clear sense of the ins and outs of audio in your DE class or DE video, watch, "Sound & Audio in Teaching."
