Answers Aerospace Engineering offers a unique and comprehensive range of avionics repair services. Our personnel have over 40 years of experience with the current systems we support, and we have built a reputation as the “Go-To Company!” We strive to provide our customers with the highest quality of evaluation, repairs, and overhauls available in the industry. Our team pursues every avenue to improve product reliability and ensure customer satisfaction.

Differentiating Value is that we specialize in managing and supporting obsolescence issues through the use of reverse engineering and FAA DER solutions. Our extensive understanding of the equipment we support sets us apart from our competitors!

Engineering Services:

- Obsolescence parts mitigation
- Reverse engineering
- RSDER solutions
