

June 2024

National Safety Month

This month focuses on reducing the leading causes of injury and death at work, on the road, and in our homes and communities:

1. Instead of focusing on a single workplace hazard, the National Safety Council selects four different health and safety issues each year and dedicates one week to each issue, such as emergency preparedness, wellness, falls, and driving.
2. It offers safety tips for everyday life - National Safety Month teaches us to be proactive when it comes to anticipating potential disasters. This is something you can implement at your workplace and home to make it safer for you and your loved ones.

Monday	Tuesday	Wednesday	Thursday	Friday
3	4	5	6	7
