

# JOAN CHITTISTER:

Her story, my story, our story

A one-woman play  
about two women  
for all women  
...and men

*"The work is seamlessly,  
artfully and movingly welded  
together. It's a fresh and interesting  
approach to the notion of the universality of  
women today. It has heart and  
substance...great praise."*

- Joan Chittister
