

Welcome to Traders Strategic Edge TM the cutting-edge auto trader by Rhino Software, Inc.

Frist, we want to thank you for your purchase of the product, we are looking forward to helping you become more efficient with your trading in the coming weeks and months.

## INSTALLING THE TSENQNT8 v1.xxx

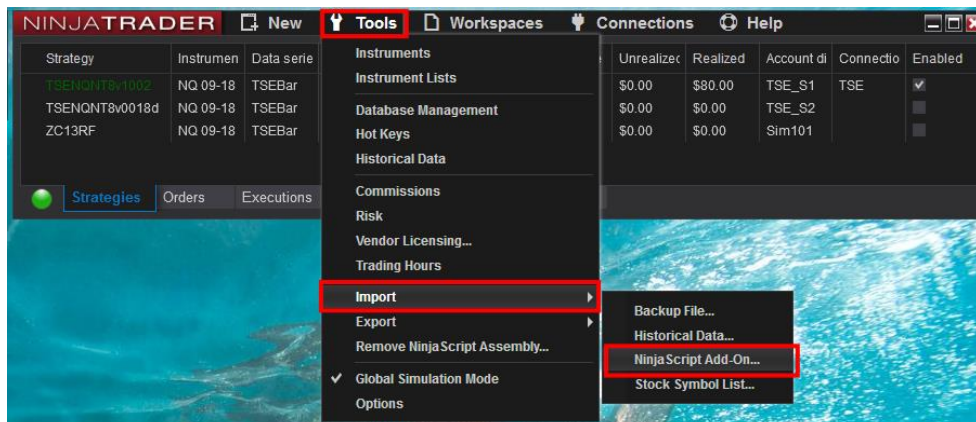

After downloading the zip file from our website, you will need to save that file to a location on your computer that you can easily recall. We suggest your desktop as it will be the easiest to find your file for the next step.

- 1) Start up your NinjaTrader application and let it fully load. This may take a little time if your computer has a lot of applications running concurrently.
- 2) Once started the NinjaTrader Control Center should be up on your screen. It should look something like this:

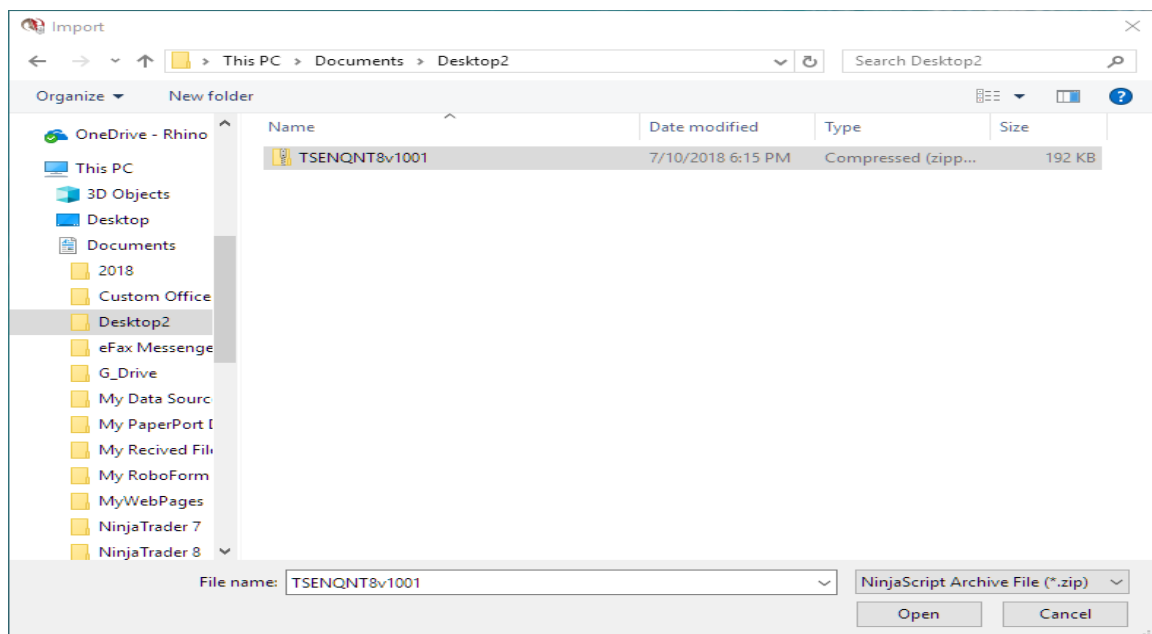

NINJATRADER											
New Tools Workspaces Connections Help											
Strategy	Instrumen	Data serie	Parameter	Position	Acct. posit	Avg. price	Unrealized	Realized	Account di	Connectio	Enabled
TSENQNT8v1002	NQ 09-18	TSEBar	-190/True	-	-	0	\$0.00	\$80.00	TSE_S1	TSE	<input checked="" type="checkbox"/>
TSENQNT8v0018d	NQ 09-18	TSEBar	-200/True	-	-	0	\$0.00	\$0.00	TSE_S2		<input type="checkbox"/>
ZC13RF	NQ 09-18	TSEBar		-	-	0	\$0.00	\$0.00	Sim101		<input type="checkbox"/>

- 3) From here select the Tools Menu option along the top of the screen.
- 4) Select Utilities from the drop-down menu and then "Import"
- 5) Select Ninja Script Add On...

- 6) Once you select this menu option you will be presented by the regular Windows File Explorer window. You should navigate to your desktop if not already there, and select the TSENQNT8v1.xxx zip file that you downloaded earlier for our Website. Your version number may be different as we upgrade TSENQNT8v1.xxx from time to the time. The latest version will always be on the website.

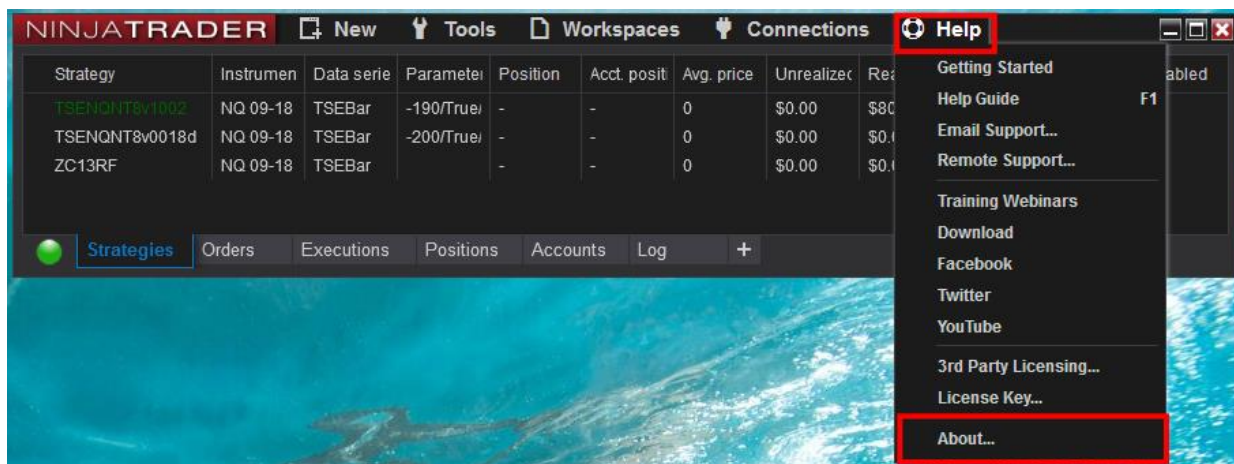

- 7) Highlight the zip file and select the “Open” button. NinjaTrader will then unzip this folder and install the various components within it. **In some instances, you may be asked to accept or decline some items to be installed on your computer. Be sure to select “OK” or “Yes” for these items as they are crucial to the application functioning properly.**
- 8) Once the installation is completed you should have the following dialogue window pop up on your screen. Please select “OK” once you have confirmed proper installation of the package.

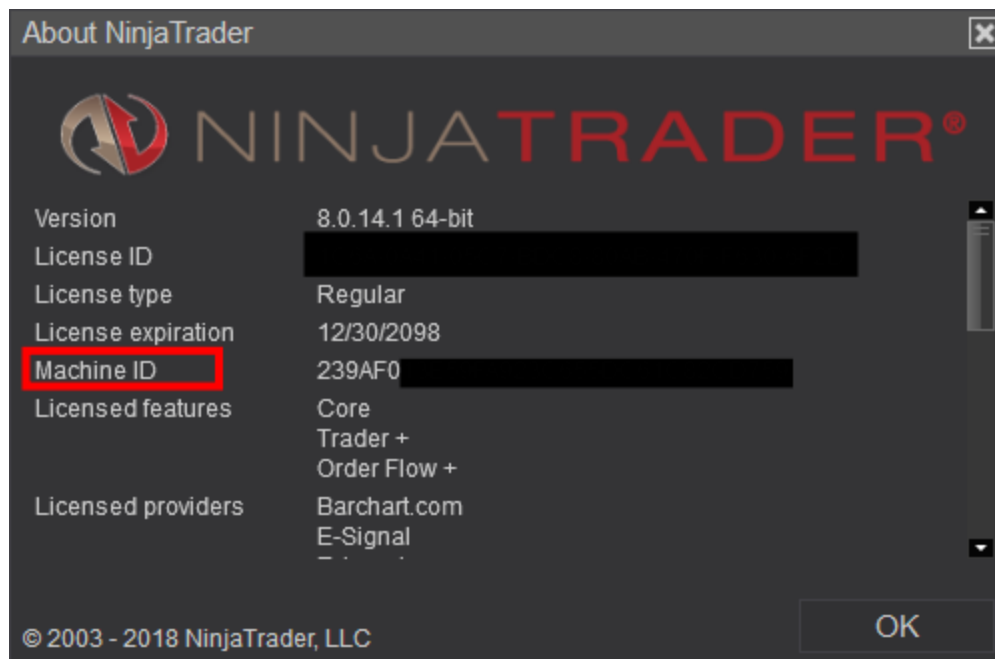

## Registering your Software

**Registering your software with Rhino Software is required to use the package.** To register your package, go to the control Panel and select “Help” a drop-down list appears. From that list select “About”

Once selects an Information box should appear. In that box the third item down is Machine ID: Please highlight all the letter and numbers to the right of that and copy them to your clipboard.

Once you have that information open a new email that you will be sending to us. You will need to paste that copied Machine ID into that email. As add your full name and the last four digits of your primary phone number. This information will be used to register your computer and yourself with this copy of TSENQNT8. Please send the email to – [rhinosoftwareinc@gmail.com](mailto:rhinosoftwareinc@gmail.com) In the subject line please put “Registration”

Finally you will need to restart you Ninja Trader software so that the packages you just installed are properly loaded for use.

You are now ready to proceed to setting up your software. Please proceed to “Setting up your software”
