

Patti Finnegan's - COVID-19 Guidelines

Welcome Back! We are happy to have you here with us and we are ready to serve you again. We are doing everything we can to ensure your safety as well as all of our employees by following the strict guidelines and regulations set in place by the CDC, State and County Health Departments and the Governors orders. With that being said things will be a little different. Here are some of the procedures you can expect from us along with some rules we will be expecting you to follow.

Please do not enter our building if you or anyone in your house are, or have been recently sick. We are monitoring all of our employees and delivery personnel daily.

Limit your party to 8 people or less.

Please ONE transaction per table to limit contact.

Do not move or combine tables. They are configured in accordance with social distancing guidelines.

Our seating capacity has been reduced to 50% in order to maintain six feet distancing between tables.

This means wait times will be longer so please be patient. We are doing the best to accommodate everyone.

Out of respect for waiting guests, we ask our seated guests to limit visits to 1 1/2 hours.

If you are waiting for a table, you will receive a text letting you know your table is ready. We no longer have a waiting area, so please wait outside and feel free to order a drink at the Turn and relax at the tables nearby.

Please do not loiter on the front porch of the Pro Shop. Please maintain 6 feet social distancing guidelines from all other guests while waiting.

Face coverings are required when you enter the building and until you are seated at your table.

If possible, please view our menu from our website, pattifinnegans.com, or scan our QR Code on your phone. If you are not able to do so we can provide you with a disposable menu upon request.

Bar stools have been removed to maintain 6 feet distancing. Please no loitering around the bar.

We will have single serve salt & pepper available upon request. Condiments will be brought to the table upon request and thoroughly sanitized between each use. Silverware will be rolled using single-use gloves.

Our staff if required to wear masks at all times. All kitchen employees will be wearing gloves in the kitchen area when handling food, consistent with the guidelines and regulations from the CDC and Health Department.

Each shift will have designated cleaners to clean, disinfect and sanitize work surfaces, shared surfaces and bathroom surfaces.

Please be kind, understanding and patient as we all work through these changes together.

Thank You!

The Patti Finnegan's Team
